Convenience Translation of the Independent Auditor’s Report Originally Prepared and Issued in Turkish to English

To the Shareholders’ of Burgan Bank A.Ş.

A) Audit of the Consolidated Financial Statements

Qualified Opinion

We have audited the consolidated financial statements of Burgan Bank A.Ş. (“the Bank”) and its consolidated financial subsidiaries (together will be referred as to “the Group”) which comprise the consolidated balance sheet as at 31 December 2024 and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders’ equity, consolidated statement of cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, except for the effect of the matter described in the Basis For Qualified Opinion section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Burgan Bank A.Ş. and its consolidated financial subsidiaries as at 31 December 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the “Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Legislation” which includes the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette No. 26333 dated 1 November 2006, and other regulations on accounting records of banks published by Banking Regulation and Supervision Board, circulars and interpretations published by BRSA and requirements of Turkish Financial Reporting Standards (“TFRS”) for the matters not regulated by the aforementioned legislations.

Basis for Qualified Opinion

As stated in Note 2.h.2.ii of Section Five, the accompanying consolidated financial statements as at 31 December 2024 include a free provision of total of TL 1,314,025 thousands, of which TL 558,073 thousands had been cancelled in the current period and TL 1,872,098 thousands had been recognized as expense in prior periods which does not meet the requirements of BRSA Accounting and Reporting Legislation. This free provision is provided by the Group management for the possible effects of the negative circumstances which may arise in economy or market conditions.

We conducted our audit in accordance with the “Regulation on Independent Audit of the Banks” (“BRSA Auditing Regulation”) published in the Official Gazette No.29314 dated 2 April 2015 by BRSA and Standards on Auditing which is a component of the Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority (“POA”) (“Standards on Auditing issued by POA”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We declare that we are independent of the Bank in accordance with the Code of Ethics for Auditors issued by POA (Including Independence Standards) (“POA’s Code of Ethics”) and the ethical requirements in the regulations issued by POA that are relevant to audit of consolidated financial statements, and we have fulfilled our other ethical responsibilities in accordance with the POA’s Code of Ethics and regulations. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section we have determined the matters described below to be the key audit matters to be communicated in our report.

Impairment of loans, leasing receivables and factoring receivables (“loans”) measured at amortised cost.

The details of accounting policies and significant estimates and assumptions for impairment of loans measured at amortised cost are presented in Section III, No: VIII of the consolidated financial statements.

Key audit matter	How the matter is addressed in our audit
<p>As of 31 December 2024, loans measured at amortised cost comprise 51% of the Bank’s total assets.</p> <p>The Bank recognizes its loans in accordance with the Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside (the “Regulation”) published on the Official Gazette No. 29750 dated 22 June 2016 and TFRS 9 Financial Instruments standard (“Standard”).</p> <p>The Bank applies the “expected credit loss model” in determining the impairment of financial assets in accordance with the Regulation and Standard. The model which contains significant assumptions and estimates is reviewed by the Bank’s management annually.</p> <p>The significant assumptions and estimates used in the model by Bank’s management are as follows:</p> <p>— significant increase in credit risk;</p>	<p>Our procedures for testing the impairment of loans measured at amortised cost are as below:</p> <ul style="list-style-type: none">• We tested the design, implementation and operating effectiveness of the controls on lending, collateralization, collection, follow-up, classification and impairment procedures are tested with the involvement of information risk management specialists.• We evaluated the model and methodology and the evaluation of the calculations were carried out with the control testing and detailed analysis by the involvement of specialist.• We evaluated the model and methodology and the evaluation of the calculations were carried out with the control testing and detailed analysis by the involvement of specialist.• We performed loan reviews for selected loan samples which include a detailed examination of loan files and related

<p>— incorporating the forward-looking macroeconomic information in calculation of credit risk; and</p> <p>— design and implementation of expected credit loss model.</p> <p>The determination of the impairment of loans measured at amortised cost depends on the (i) credit default status, (ii) the model based on the change in the credit risk at the first recognition date and (iii) the classification of the loans measured at amortised cost according to the model. Establishing an accurate classification is a significant process as the calculation of expected credit loss varies to the staging of the financial assets.</p> <p>The Bank calculates expected credit losses on both an individual and a collective basis. Individual provisions consider the estimated future performance of the business and the fair value of the collateral provided for credit transactions.</p> <p>The collective basis expected credit loss calculation is based on complex processes which are modelled by using current and past data sets and expectations. The completeness and accuracy of data sets in the model are also considered and the forward-looking expectations are reflected by macroeconomic models.</p> <p>Impairment on loans measured at amortised cost is determined as a key audit matter, due to the significance of the estimates, the level of judgements and its complex structure as explained above.</p>	<p>information and testing their classification. In this context, the current status of the loan customer has been evaluated on prospective information and macroeconomic variables.</p> <ul style="list-style-type: none"> • We tested the accuracy of the expected credit loss calculations for all loans subject to individual assessment taking into account the assumptions and estimates used. • We tested the accuracy and completeness of the data in the calculation models for the loans which are assessed on collective basis. The expected credit loss calculation was tested through recalculation. The models used for the calculation of the risk parameters were examined and the risk parameters were recalculated. • We assessed the macroeconomic models that are used to reflect forward looking expectations and tested the effect of the risk parameters by recalculation method. • We evaluated the qualitative and quantitative assessments, which are used in determining the significant increase in credit risk. • We evaluated the sufficiency and adequacy of the consolidated financial statements' disclosures related to impairment provisions.
--	---

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the “BRSAs Accounting and Reporting Legislation”, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements

Responsibilities of auditors in an audit are as follows:

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with BRSAs Auditing Regulation and Standards on Auditing issued by POA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with BRSAs Auditing Regulation and Standards on Auditing issued by POA, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group’s ability to continue as a going concern.
- If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B) Report on Other Legal and Regulatory Requirements

- 1) Pursuant to the fourth paragraph of Article 402 of the Turkish Commercial Code ("TCC") No. 6102; no significant matter has come to our attention that causes us to believe that the Bank's bookkeeping activities for the period 1 January - 31 December 2024 are not in compliance with TCC and provisions of the Bank's articles of association in relation to financial reporting.
- 2) Pursuant to the fourth paragraph of Article 402 of the TCC; the Board of Directors provided us the necessary explanations and required documents except for the annual report, in connection with the audit.

SECTION ONE

GENERAL INFORMATION ABOUT THE GROUP

I. PARENT BANK'S FOUNDATION DATE, START-UP STATUTE, HISTORY ABOUT THE CHANGES IN THIS MENTIONED STATUTE:

Tekfen Yatırım ve Finansman Bankası A.Ş. was established as an "investment bank" with the permission of the Council of Ministers No. 88/13253 on 26 August 1988 and authorised to conduct finance investment and foreign trade activities. Banking operations commenced on 7 August 1989.

Bank Ekspres A.Ş. ("Bank Ekspres") was established with the permission of the Council of Ministers in decision No. 91/2316 on 22 September 1991; "The Decree of Establishment Permission" was published in the Official Gazette numbered 21017 and dated 10 October 1991. The Articles of Association was published in the Trade Registry Gazette numbered 2969 and dated 18 February 1992. The Turkish Savings Deposit and Insurance Fund ("SDIF") took over the management of Bank Ekspres A.Ş. due to the poor fiscal structure of the Bank on 23 October 1998.

According to the Share Transfer Agreement signed between the SDIF and Tekfen Holding A.Ş. on 30 June 2001, 2,983,800,000 shares with a nominal value of Kr1 each and which amount to 99.46% of the capital of Bank Ekspres A.Ş. under the control of the SDIF in accordance with Banking Law were transferred to Tekfen Holding A.Ş.. Based on this agreement, the acquisition of Tekfen Yatırım ve Finansman Bankası A.Ş., where Tekfen Holding A.Ş. owns 57.69% of the Bank, by Bank Ekspres A.Ş. was permitted by the Banking Regulation and Supervision Agency's ("BRSA") decision numbered 489 dated 18 October 2001. The share transfers were realised on 26 October 2001 and the Bank's name was changed to Tekfenbank Anonim Şirketi, which had two main shareholders: Tekfen Holding A.Ş. with 57.30% and TST International S.A. with 40.62%.

EFG Eurobank Ergasias S.A. ("Eurobank EFG") and Tekfen Holding A.Ş. ("Tekfen Group") signed an agreement as of 8 May 2006, that anticipated Eurobank EFG to purchase Tekfen Group's 70% share in Tekfenbank A.Ş. and Tekfen Finansal Kiralama A.Ş. which is fully owned by Tekfenbank; where Tekfen Group retained its strategic partnership by keeping all remaining shares. On 23 February 2007, the sale of Tekfenbank A.Ş. to Eurobank EFG Holding (Luxembourg) S.A. ("Eurobank EFG Holding") was approved by the BRSA and the sale was completed after the share transfer on 16 March 2007.

Under the agreement regarding the sale of Eurobank Ergasias S.A.'s Turkey operations to Burgan Bank K.P.S.C. (formerly Burgan Bank S.A.K), 70% of the Bank shares belonging to Eurobank EFG Holding (Luxemburg) S.A. and 29.26% of the shares belonging to Tekfen Holding A.Ş. are bought by Burgan Bank K.P.S.C. in 7 December 2012 in accordance with the Banking Regulation and Supervision Agency's authorization, and then 99.26% of the Bank shares are turned over to Burgan Bank K.P.S.C. in 21 December 2012.

At the Extraordinary Board of Directors meeting on 23 January 2013, the title of the Bank has been decided to change from Eurobank Tekfen A.Ş. to Burgan Bank A.Ş. ("the Bank"), and has been registered to the Turkish Trade Registry as of 25 January 2013.

Burgan Bank K.P.S.C., which is the main shareholder with a share ratio of 99.41%, has completed the transfer transaction of its share corresponding to 52% of the Bank's capital to Al Rawabi United Holding K.S.C.C., obtaining necessary approvals from the Banking Regulation and Supervision Agency on 13 November 2023. Kuwait Projects Company K.S.C.P., the actual main shareholder of Burgan Bank K.P.S.C., also owns 99.99% of the shares of Al Rawabi United Holding Company K.S.C.C. Therefore, there has been no change in the ultimate ownership of Burgan Bank A.Ş., as Kuwait Projects Company K.S.C.P., the actual main shareholder of Burgan Bank K.P.S.C., holds 99.99% of the shares of Al Rawabi United Holding Company K.S.C.C.

BURGAN BANK A.Ş.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

GENERAL INFORMATION ABOUT THE GROUP (Continued):

II. EXPLANATION ABOUT THE PARENT BANK'S CAPITAL STRUCTURE, SHAREHOLDERS OF THE PARENT BANK WHO ARE IN CHARGE OF THE MANAGEMENT AND/OR AUDITING OF THE PARENT BANK DIRECTLY OR INDIRECTLY, CHANGES IN THESE MATTERS (IF ANY) AND THE GROUP THE PARENT BANK BELONGS TO:

The Bank's registered capital ceiling is 6 billion full TL.

The Bank's capital amounting to full TL 3,050,000,000 has been registered.

In accordance with the Decision of the Board of Directors of the Bank dated 21 June 2023 and numbered 2023/22, the required permission was obtained from Banking Regulation and Supervision Agency regarding increasing the capital amounting to TL 2,655,500,000 by TL 6,000,000,000 to TL 394,500,000, being within the limit of registered capital ceiling amounting to TL 3,050,000,000, and it was notified that there is no objection for consummation of transactions regarding the capital increase. In this context, the capital amount provided by the shareholders were transferred to the paid-in capital account and it is registered and announced in the Turkish Trade Registry Gazette dated 13 December 2023 and numbered 10978.

Burgan Bank K.P.S.C., which is the main shareholder with a share ratio of 99.41%, has completed the transfer transaction of its share corresponding to 52% of the Bank's capital to Al Rawabi United Holding K.S.C.C., obtaining necessary approvals from the Banking Regulation and Supervision Agency on 13 November 2023. Kuwait Projects Company K.S.C.P., the actual main shareholder of Burgan Bank K.P.S.C., also owns 99.99% of the shares of Al Rawabi United Holding Company K.S.C.C. Therefore, there has been no change in the ultimate ownership of Burgan Bank A.Ş., as Kuwait Projects Company K.S.C.P., the actual main shareholder of Burgan Bank K.P.S.C., holds 99.99% of the shares of Al Rawabi United Holding Company K.S.C.C.

Founded in 1977, Burgan Bank K.P.S.C., as an affiliate of KIPCO Group (Kuwait Projects Company), one of the largest holding groups of the MENA region (Middle East and North Africa), is among the significant banking groups in the region. Besides Kuwait, Burgan Bank Group also operates as a main shareholder with its affiliate banks in Algeria (Gulf Bank Algeria), Iraq (Bank of Baghdad), and Tunisia (Tunis International Bank).

(*) As of the preparation date of the financial statements, the General Assembly meeting of the Bank has not been held yet.

(**) It contains the information on the “Dividend Distribution Statement” approved at the Bank’s Ordinary General Assembly held on 25 March 2024.

(***) It has been considered by the Banking Regulation and Supervision Agency that the income amounts related to deferred tax assets cannot be qualified as cash or internal resources, and therefore, the part of the period profit arising from the said assets should not be subject to profit distribution and capital increase. The deferred tax expense that will not be subject to distribution as of 31 December 2024 is TL 573,945 (31 December 2023: Deferred tax income TL 661,639).

(****) TL 1,504,926 in net profit for the period consists of TAS 27 adjustments (31 December 2023: TL 965,707).

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD

I. BASIS OF PRESENTATION:

- a. The preparation of the consolidated financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on the Principles and Procedures numbered 5411 Regarding Banks’ Accounting Application and Keeping Documents:**

The consolidated financial statements are prepared within the scope of the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” related with Banking Act numbered 5411 published in the Official Gazette no.26333 dated 1 November 2006 and in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency (“BRSA”), and in case where a specific regulation is not made by BRSA, “Turkish Accounting Standards” (“TAS”) and “Turkish Financial Reporting Standards” (“TFRS”) and related appendices and interpretations (all “Turkish Accounting Standards” or “TAS”) put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”). The format and content of the publicly announced unconsolidated financial statements and related disclosures to these statements have been prepared in accordance with the “Communiqué related to Publicly Announced Financial Statements of Banks and Explanations and Notes to related to these Financial Statements”, published in the Official Gazette No. 28337, dated 28 June 2012, and changes and amendments to this Communiqué. The Parent Bank maintains its accounting entries in Turkish Lira, in accordance with the Banking Law, Turkish Trade Law and the Turkish Tax Legislation.

The consolidated financial statements expressed in TL, were prepared with the cost-based method and were subject to inflation adjustments until 31 December 2004, except for financial assets, liabilities and buildings which were carried at fair value. The amounts in the consolidated financial statements and notes related to these financial statements have been expressed in thousands of Turkish Lira, unless otherwise stated. The preparation of consolidated financial statements in conformity with TAS requires the use of certain critical accounting estimates by the Parent Bank management to exercise its judgment on the assets and liabilities of the balance sheet and contingent issues as of the balance sheet date. These estimates, which include the fair value calculations of financial instruments and impairments of financial assets are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are reflected to the income statement. Assumptions and estimates that are used in the preparation of the accompanying financial statements are explained in the following related disclosures.

In accordance with the CMB's decision dated 17 March 2005 and numbered 11/367, for companies operating in Turkey and preparing financial statements in accordance with Turkish Accounting Standards, the application of inflation accounting has been terminated as of 1 January 2005. Accordingly, as of 1 January 2005, the standard No. 29 “Financial Reporting in Hyperinflationary Economies” (“TAS 29”) has not been applied.

According to TAS 29 Financial Reporting in Hyperinflationary Economies, entities whose functional currency is the currency of a hyperinflationary economy report their financial statements in terms of the currency's purchasing power at the end of the reporting period. TAS 29 defines characteristics that may indicate an economy is hyperinflationary. Moreover, under TAS 29, all entities reporting in the currency of a hyperinflationary economy are required to apply this Standard from the same date. Therefore, it is expected that all entities will start applying TAS 29 simultaneously with the announcement to be made by the Public Oversight, Accounting and Auditing Standards Authority to ensure consistency in application nationwide, as stated in TAS 29.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

I. BASIS OF PRESENTATION (Continued):

a. The preparation of the consolidated financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on the Principles and Procedures Regarding Banks' Accounting Application and Keeping Documents (continued):

With its announcement dated 23 November 2023, the Public Oversight, Accounting, and Auditing Standards Authority (POA) stated that the financial statements of entities applying the Turkish Financial Reporting Standards, for annual reporting periods ending on or after 31 December 2023, should be prepared in accordance with the Financial Reporting Standard for High Inflationary Economies ("TAS 29"). However, it was also mentioned that institutions authorized to regulate and supervise in their respective fields may determine different transition dates for the application of TAS 29 provisions. In response to POA's announcement, the Banking Regulation and Supervision Agency (BRSA) decided through its decision numbered 10744 dated 12 December 2023, that banks, financial leasing, factoring, financing, savings finance, and asset management companies would not be subject to inflation adjustment for their financial statements ending on 31 December 2023, under TAS 29. According to the decision numbered 10825 dated 11 January 2024, by BRSA, it was decided that banks, financial leasing, factoring, financing, savings finance, and asset management companies would transition to inflation accounting from 1 January 2025, onwards. However, with the decision numbered 11021 dated 5 December 2024, by BRSA, it was decided that banks, financial leasing, factoring, financing, savings finance, and asset management companies will not apply inflation accounting in 2025.

b. Explanations on accounting policies and changes in financial statement presentations:

None.

c. Items subject to different accounting policies in the preparation of consolidated financial statements:

None.

II. EXPLANATIONS ON STRATEGY OF USING FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS:

The general strategy of the Group is using financial instruments to sustain an optimal balance between the yield of the instruments and their risks. The most important funding source of the Group is deposits. Additionally, the Group can also sustain a lengthened liability structure by using long-term borrowings from foreign financial institutions. Funds obtained from deposits and other sources are invested in high yield and quality financial assets and currency, interest rate and liquidity risks are being kept within the limits following the asset-liability management strategy. The currency, interest and liquidity risks of on-balance sheet and off-balance sheet assets and liabilities are managed accordingly within the risk limits accepted by the Group and the related legal limits. Derivative instruments are mainly utilized for liquidity needs and for mitigating currency and interest rate risks. The position of the Group as a result of foreign currency activities are being held within the legal limits and the exposed currency risk is followed within the levels determined by the Board of Directors, considering the limits given by the Banking Law.

Foreign currency denominated monetary assets and liabilities are translated with the Parent Bank's foreign currency bid rates prevailing at the balance sheet date. Gains and losses arising from such valuations are recognized in the income statement under the account of "Foreign exchange gains or losses".

As of 31 December 2024, foreign currency denominated balances are translated into TL using the exchange rates of TL 35.2803 and TL 36.7362 for USD and EUR, respectively.

BURGAN BANK A.Ş.

**EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF 31 DECEMBER 2024**

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

III. EXPLANATIONS ON INVESTMENTS IN CONSOLIDATED ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES:

The consolidated financial statements are prepared in accordance with the TFRS 10 “Turkish Accounting Standard for Consolidated Financial Statements”. Consolidation principles for subsidiaries:

Subsidiaries are entities controlled directly or indirectly by the Parent Bank. Subsidiaries are consolidated using the full consolidation method on the grounds of materiality principle considering their operations, asset and equity sizes. Financial statements of related subsidiaries are consolidated from the date when the control is transferred to the Parent Bank.

Control depicts the significant influence the Parent Bank has over an investment to a legal entity, the varying yield the Parent Bank receives due to its relationship with this entity or the rights of the Parent Bank entitled over this yield and the power to impact the yield that the invested legal entity will generate.

In the full consolidation method, 100% of subsidiaries’ assets, liabilities, income, expense and off-balance sheet items are combined with the Parent Bank’s assets, liabilities, income, expense and off-balance sheet items.

The carrying amount of the Group’s investment in each subsidiary and the Group’s portion of the cost value of the capital of each subsidiary are eliminated. Intergroup balances and intergroup transactions and resulting unrealized profits and losses are eliminated. Minority interests are presented in the consolidated balance sheet, under shareholder’s equity. Minority interests are presented separately in the Group’s income.

The Group has no joint ventures as of 31 December 2024 and 31 December 2023.

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

IV. EXPLANATIONS ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS:

The major derivative instruments utilized by the Group are currency and interest rate swaps, cross currency swaps, currency options and currency forwards.

The Group classifies its currency forwards, swaps, options and futures as transactions at “Fair Value Through Profit or Loss” in accordance with TFRS 9 principles. Derivative transactions are recorded in accordance with their fair value on the contract date. Also, liabilities and receivables arising from derivative instruments are followed in the off-balance sheet accounts from their contractual values.

Derivative instruments are measured at their fair values in the periods following their recording and are disclosed under assets or liabilities in the “Derivative Financial Assets at Fair Value Through Profit or Loss” section according to whether their fair value is positive or negative. Valuation differences in the fair value of trading derivative instruments are reflected to the income statement. The fair values of the derivative financial instruments are calculated by using quoted market prices or by using discounted cash flow models.

As of 31 December 2024, the Group applies cash flow hedge accounting through cross and interest currency swaps to protect against changes in interest rates of FC deposits which have average maturities of up to 3 months. The Group implements effectiveness tests at the balance sheet dates for hedge accounting, the effective parts are accounted as defined in TAS 39, on the financial statements under equity “Accumulated Other Comprehensive Income or Expense to be Reclassified Through Profit or Loss”, whereas the amount concerning ineffective parts is associated with the income statement.

In cash flow hedge accounting, when the hedging instrument expires, is executed or sold and when the hedge relationship becomes ineffective or is discontinued as a result of the hedge relationship being revoked; the hedging gains and losses that were previously recognized under equity are transferred to profit or loss when the cash flows of the hedged item are realized. The renewal of a financial hedging instrument or the transfer of a financial hedging instrument to another financial hedging instrument does not eliminate the hedging relationship, if the financial hedging instrument is part of the hedging strategy in accordance with TFRS 9.

V. EXPLANATIONS ON INTEREST INCOME AND EXPENSE:

Interest income and expenses are recognized in the income statement by using the effective interest method.

VI. EXPLANATIONS ON FEE AND COMMISSION INCOME AND EXPENSE:

Fees and commission income/expenses are primarily recognized on an accrual basis or “Effective Interest (Internal Efficiency) Method” according to the nature of the fee and commission, except for certain commission income and fees for various banking services which are recorded as income at the time of collection. Contract based fees or fees received for services such as the purchase and sale of assets on behalf of a third party or legal person are recognized as income at the time of collection. The commissions and fees other than those whose amortised costs are an integral part of their effective profit rate, are accounted over time in accordance with the TFRS 15 Revenue From Contracts With Customers Standard.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

VII. EXPLANATIONS ON FINANCIAL ASSETS:

The Group classifies and accounts its financial assets as “Financial Assets at Fair Value Through Profit or Loss”, “Financial Assets at Fair Value Through Other Comprehensive Income” or “Financial Assets Measured at Amortized Cost”. Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part three “Classification and Measurement of Financial Instruments” published in the Official Gazette No. 29953 dated 19 January 2017 by the Public Oversight Accounting and Auditing Standards Authority. Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than “Financial Assets at Fair Value Through Profit or Loss”, transaction costs are added to fair value or deducted from fair value.

The Group recognizes a financial asset into the financial statements when it becomes a party to the contractual terms of a financial instrument. During the first recognition of a financial asset into the financial statements, the business model determined by the Bank management and the nature of contractual cash flows of the financial asset are taken into consideration. When the business model determined by the Bank’s management is changed, all affected financial assets are reclassified and this reclassification is applied prospectively. In such cases, no adjustments are made to earnings, losses or interests that were previously recorded in the financial statements.

a. Financial assets at fair value through profit or loss:

“Financial Assets at Fair Value Through Profit or Loss” are financial assets other than the ones that are managed with business models that aim to hold contractual cash flows in order to collect them and the ones that are managed with business models that aim to collect both the contractual cash flows and cash flows arising from the sale of the assets; If the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at a certain date; That are either acquired for generating a profit from short-term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. The gains and losses arising from the conducted valuations are included in profit/loss accounts.

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued):

b. Financial assets at fair value through other comprehensive income:

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial assets with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are re-measured at fair value. Interest income calculated with the effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. Unrealized gains and losses, arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under “Accumulated Other Comprehensive Income or Expense to be Reclassified Through Profit or Loss” under shareholders’ equity. When the mentioned marketable securities are collected or sold, the accumulated losses through fair value are reflected on the income statement.

Equity securities, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and/or whose fair values can be reliably measured are carried at their fair value. Equity securities that do not have a quoted market price in an active market and/or whose fair values cannot be reliably measured are carried at cost, less provision for impairment. In case of disposal of the equity investment, the accumulated total gain or loss is followed in the “Other Accumulated Comprehensive Income or Expense that cannot be reclassified to Profit or Loss”.

During initial recognition, an entity can make an irrevocable decision, by choosing to record the changes of the fair value of the investment in an equity instrument that is not held for trading purposes in other comprehensive income. If this choice is made, the dividends from the investment are taken into the financial statements as profit or loss.

c. Financial assets measured at amortized cost:

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost. Financial assets measured at amortized cost are initially recognized at their acquisition cost including the transaction costs which reflect the fair value of those instruments and are subsequently recognized at “Amortized Cost” by using “Effective Interest (Internal Efficiency) Rate” method. Interest income obtained from financial assets measured at amortized cost are accounted in the income statement.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued):

c. Financial assets measured at amortized cost (Continued):

Also, within the Bank’s securities portfolio, inflation-indexed government bonds are classified as financial assets reflected in fair value changes recognized in *other comprehensive income*, and financial assets measured at amortized cost. These securities are valued and accounted for using the effective interest method based on the index calculated considering real coupon rates and the inflation index at the issuance date, along with the estimated inflation rate. As specified in the Treasury’s Guide for Investors in Inflation-Indexed Bonds, the actual coupon payment amounts for these instruments are determined based on the inflation indices derived from the Consumer Price Index (CPI) two months prior. The Bank also adjusts its estimated inflation rate accordingly, in line with the expectations of the Central Bank of the Republic of Turkey and the Bank, and updates it as deemed necessary throughout the year.

d. Loans:

Loans are financial assets that have fixed or determinable payment terms and are not quoted in an active market. Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the “Effective Interest Rate (Internal Rate of Return)” method.

The Group’s loans are recorded under the “Measured at Amortized Cost” account.

Write-off policy is explained in, section V, I.e.12, the explanations and notes related to Loans.

VIII. EXPLANATIONS ON EXPECTED CREDIT LOSSES:

The Group allocates impairment for expected loss on financial assets measured at amortized cost and measured at fair value through other comprehensive income.

As of 1 January 2018, in accordance with the Communiqué related to “Procedures and Principals regarding Classification of Loans and Allowances Allocated for Such Loans” published in the Official Gazette no. 29750 dated 22 June 2016, the Bank has started to allocate a loss allowance for expected credit losses on financial assets and loans measured at amortized cost in accordance with TFRS 9. In this context, as of 1 January 2018, the credit loss allowance method within the framework of the BRSA’s related legislation has been changed to the loss allowance for expected credit losses model with the implementation of TFRS 9. The predictions of expected credit loss forecasts include credible information, which is objective, probability-weighted, supportable about past events, current conditions, and forecasts of future economic conditions.

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

VIII. EXPLANATIONS ON EXPECTED CREDIT LOSSES (Continued):

The basic parameters used in the calculations of provision are described below:

Probability of Default (PD): PD refers to the likelihood that a loan will default within a specified time horizon. Based on TFRS 9, two different PDs are considered in calculations:

- **12-month PD:** The probability of default occurring within the next 12 months following the balance sheet date.
- **Lifetime PD:** The probability of default occurring over the remaining life of the loan.

The Group generates ratings for the corporate and commercial customers via internal rating system and the 12-month or lifetime probability of defaults are estimated based on these ratings. Macroeconomic expectations are taken into account when carrying out these expectations and the weighted average of the probabilities of default calculated from three different scenarios are considered as the final probability of default.

For retail customers, the score point is generated via the internal scoring system and the 12-month or lifetime probabilities of default are estimated based on these score points by considering the above-mentioned macroeconomic factors.

For the receivables from customers such as sovereign and banks, provision is calculated by using the determined values in the corporate and commercial probability of default table and the loss given default rates.

Loss Given Default Rate: If a loan default occurs, it refers to the economic loss that might be encountered by taking into consideration the collection period and the time value of money. The Group has determined the loss given default rates by considering the expert opinion based on the past historical data set.

Exposure at Default: For cash loans, it corresponds to the amount of loan granted as of the reporting date. For non-cash loans, it is the value calculated through using credit conversion factors.

The Bank incorporates forward-looking macroeconomic data into its calculation of expected credit losses to assess default probabilities. In this context, estimates of default rates for future periods are based on Turkey's annual real Gross Domestic Product (GDP) growth rate. Predictions regarding macroeconomic variables are determined based on three different scenarios: negative, baseline, and positive, to be used in calculating expected credit losses. Final values are obtained by averaging the expected credit losses generated in the respective scenarios.

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

VIII. EXPLANATIONS ON EXPECTED CREDIT LOSSES (Continued):

These financial assets are divided into three categories depending on the gradual increase in credit risk observed since their initial recognition:

Stage 1:

These are the financial assets at initial recognition or financial assets that do not have a significant increase in credit risk since their initial recognition. Impairment for credit risk for these assets is accounted in the amount of 12-month expected credit losses. Therefore, the expected probability of default of 12 months is calculated by considering the maturity of the loan. This value is obtained after weighting the three macroeconomic scenarios and the provision is calculated using the loss given default and risk amounts calculated by taking into consideration the collateral composition of the loan.

Stage 2:

As of the reporting date of the financial asset, in the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. Impairment for credit risk is accounted based on the financial asset’s lifetime expected credit losses. The provision which will be allocated for the loan is calculated by considering the maturity and cash flow of the loan for three macroeconomic scenarios as stated above. For this purpose, the probability of default and the loss given default amounts are estimated not only for 12 months but also for the whole life of the loan and the loan provision is determined by using the present value set calculated over the cash flow.

Stage 3:

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit losses are recognized. The method is similar to the methodology applied for Stage 2 loans, but the probability of default is considered 100% in these calculations. In general the Group follows the definition of default in the legislation (objective default definition, for example the criterion of the number of days past due). On the other hand, if it is decided that the debt will not be paid, the aforementioned receivable will be considered as Stage 3, even if the default has not occurred yet.

The Group carries out its determination regarding the significant increase in credit risk by taking into consideration of the following criterias:

- Type of customer (calculations are made on separate models for corporate and commercial customers and retail customers).
- Internal rating scores (calculations are based on score points for retail customers and ratings for corporate and commercial customers).
- The deterioration observed in the internal rating score between the drawdown date and the reporting date.

In addition to the rules above, the Group has also set aside additional provisions through individual assessment.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

IX. EXPLANATIONS ON OFFSETTING FINANCIAL ASSETS:

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Group has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

X. EXPLANATIONS ON SALES AND REPURCHASE AGREEMENTS AND SECURITIES LENDING TRANSACTIONS:

Securities subject to repurchase agreements (“Repo”) are classified as “Financial assets at fair value through profit or loss”, “Financial assets at fair value through other comprehensive income” and “Financial assets measured at amortized cost” according to the investment purposes of the Group and are measured according to the portfolio to which they belong. Funds obtained from repurchase agreements are accounted under “Funds Provided under Repurchase Agreements” in liabilities and the difference between the sale and repurchase price is accrued over the life of repurchase agreements using the effective interest method.

Funds given against securities purchased under agreements (“Reverse repo”) to resell are accounted under “Receivables from Reverse Repurchase Agreements” on the balance sheet. The difference between the purchase and determined resell price is accrued over the life of repurchase agreements using the “effective interest method”. The Group has no securities lending transactions.

XI. EXPLANATIONS ON TANGIBLE ASSETS HELD FOR RESALE, DISCONTINUED OPERATIONS AND LIABILITIES REGARDING THOSE ASSETS:

Assets held for sale are measured at the lower of the assets’ carrying amount and fair value less costs to sell. Held for sale assets are not amortized and presented separately in the financial statements. In order to classify an asset as held for sale, only when the sale is highly probable, experienced quite often and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale. Highly saleable condition requires a plan by the management regarding the sale of the asset to be disposed (or else the group of assets), together with an active program for determination of buyers as well as for the completion of the plan. Also the asset (or else the group of assets) shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or cancelling the plan is low. Various circumstances and conditions could extend the completion period of the sale more than one year. If such delay arises from any events and conditions beyond the control of the entity and if there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or else group of assets) are continued to be classified as assets held for sale.

The Group has no discontinued operations.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

XII. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS:

a. Goodwill:

As of 31 December 2024, the Group has no goodwill (31 December 2023: None).

b. Other intangible assets:

Intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated amortization and the provision for value decreases, if any.

Intangibles are amortized over their estimated useful lives using the straight-line amortization method. The useful life of the asset is determined by assessing the expected useful life of the asset, technical, technological and other kinds of obsolescence and all required maintenance expenses necessary to utilize the economic benefit of the asset and differs from 3 years to 15 years.

XIII. EXPLANATIONS ON PROPERTY AND EQUIPMENT:

Tangible assets is measured at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. Subsequently, tangible assets are carried at cost less accumulated depreciation and provision for value decrease, if any.

The Group has adopted the “revaluation method” in accordance with the “Communiqué Regarding the Principles and Procedures for the Tangible Assets (“TAS 16”)” for its buildings. Independent expert appraisal values determined by independent experts are presented in the financial statements.

Depreciation is calculated over the cost of property and equipment using the straight-line method. The depreciation rates are stated below:

Buildings	2%
Movables, Movables Acquired by Financial Leasing	2-50%

As of the balance sheet date, the depreciation charge for items remaining in property and equipment for less than an accounting period is calculated in proportion to the time period the item remained in property and equipment.

When the carrying amount of an asset is greater than its estimated “Recoverable amount”, it is written down to its “Recoverable amount” and the provision for the diminution value is charged to the income statement.

Gains and losses on the disposal of property and equipment are determined by deducting the net book value of the property and equipment from its sales revenue.

Expenditures for the repair and renewal of property and equipment are recognized as expense. The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalized on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset, or the quality of the product or to decrease the costs.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

XIV. EXPLANATIONS ON LEASING TRANSACTIONS:

The Group records its fixed assets obtained via leasing by taking into consideration the “lower of the fair value of the leased asset and the present value of the amount of cash consideration given for the leased asset”.

Leased assets are included in the property and equipment and these assets are depreciated by taking their useful lives into consideration. If impairment is detected in the value of the leased asset, a “Provision for impairment” is recognized. Liabilities arising from leasing transactions are included in “Financial Lease Payables” on the balance sheet. Interest and foreign exchange expenses regarding lease transactions are charged to the income statement. The Group realizes financial leasing transactions as a “Lessor” by means of Burgan Finansal Kiralama A.Ş. which is the consolidated subsidiary of the Group.

With the “IFRS 16 Leases” standard, which became effective as of 1 January 2019, the difference between operating lease and financial lease has been removed, and lease transactions have started to be recognized under “Tangible Fixed Assets” as an asset (right to use asset) and under “Lease Payables” as a liability.

The Group has applied the changes in accounting policies due to the initial implementation of the “IFRS 16 Leases” standard, which is among the new standards, amendments and interpretations effective from 1 January 2019, in accordance with the transition obligations of the related standard.

IFRS 16 "Leases" Standard

The Group – lessee:

At the beginning of a contract, the Group assesses whether the contract has the quality of a lease or whether the contract includes a lease transaction. In circumstances when the contract transfers the right of controlling the asset for a certain time period for a certain price, this contract carries the quality of a lease or includes a leasing transaction. Group, reflects the existence of a right of use and a lease liability to the financial statements at the effective date of the lease.

Existence of right to use:

The right to use asset is first recognized by the cost method and includes the following:

- a) The initial measurement amount of the lease obligation,
- b) The amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease,
- c) All initial direct costs incurred by the Bank

When the Group applies the cost method, the existence of the right to use:

- a) accumulated depreciation and accumulated impairment losses are deducted and
- b) measures the restatement of the lease obligation at the restated cost.

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

XIV. EXPLANATIONS ON LEASING TRANSACTIONS (Continued):

The Group applies the depreciation statutes included in the TAS 16 Tangible Assets standard while depreciating the right to use an asset.

Lease obligation:

At the effective date of the lease, the Group measures its leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the Group's average borrowing interest rates in the case of this rate being easily determined. Otherwise, the Group uses its alternative borrowing interest rates.

The lease payments included in the measurement of the lease liability consist of the payments to be made for the right of use during the lease term of the underlying asset and the unpaid payments at the effective date of the lease:

After the effective date of the lease, the Group measures the leasing liability as follows:

- a) Increases the book value to reflect the interest on the lease obligation,
- b) Reduces the book value to reflect the lease payments made and
- c) The book value is measured to reflect reassessments and restructuring, or to reflect fixed lease payments as of revised nature.

The interest on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic interest rate to the remaining balance of the lease liability.

XV. EXPLANATIONS ON PROVISIONS AND CONTINGENT COMMITMENTS:

Provisions and contingent liabilities except for the specific and general provisions recognized for loans and other receivables are accounted in accordance with the “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (“TAS 37”).

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. The provision for contingent liabilities arising from past events should be recognized in the same period of occurrence in accordance with the “Matching principle”. When the amount of the obligation cannot be estimated and there is no possibility of an outflow of resources from the Group, it is considered that a “Contingent” liability exists and it is disclosed in the related notes to the financial statements.

XVI. EXPLANATIONS ON CONTINGENT ASSETS:

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

XVII. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS:

The Group accounts obligations related to employee termination and vacation rights in accordance with “Turkish Accounting Standard for Employee Rights” (“TAS 19”) and classifies these items under the “Reserve for Employee Rights” account in the balance sheet.

Under the Turkish Labour Law, the Group is required to pay a specific amount to the employees who have retired or whose employment is terminated other than the reasons specified in the Turkish Labour Law. The reserve for employment termination benefits represents the present value of the estimated total reserve for the future probable obligation of the Group arising from this liability.

According to the TAS 19 that is revised by Public Oversight Accounting and Auditing Standards Authority with the Communiqué published in the Official Gazette on 12 March 2013 numbered 28585, in the calculation of the employment termination benefit liabilities of the Group, the recognition option of the actuarial gains and losses derived from the changes in actuarial assumptions or the differences between actuarial assumptions and realizations in the statement of profit or loss have been eliminated, which is effective for annual periods beginning on or after 1 January 2013. The earlier application of the revision is permitted in the section of the transition and effective date of the standard and therefore the Group has recognised the actuarial gains and losses that occur in related reporting periods in the “Statement of Profit or Loss and Other Comprehensive Income” and presented in “Other Reserves” item in the Shareholders Equity section.

XVIII. EXPLANATIONS ON TAXATION:

a. Current tax:

The Corporate Tax Law No. 5520 entered into force with many of its provisions being published in the Official Gazette No. 26205 dated 21 June 2006, effective from 1 January 2006. Accordingly, in Turkey, the general Corporate Tax rate is 25% and the corporate tax rate is based on the corporate profits of banks, companies within the scope of Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies. The tax is calculated at a rate of 30%. The corporate tax rate is applied to the tax base found by adding expenses that are not accepted as deductions according to the tax laws to the commercial earnings of the institutions, and deducting the exceptions (such as the partnership earnings exception) and discounts included in the tax laws. If the profit is not distributed, no other tax is paid.

Corporate tax applied at the rate of 20% for corporate earnings in Turkey, pursuant to the regulation introduced by the Law No. 7316 on the “Law on the Collection of Public Claims and Amendments to Certain Laws” is applied as 25% to be applied to corporate earnings for the 2021 taxation period and 23% to be applied to corporate earnings for the 2022 taxation period, pursuant to the regulation introduced by the Law No. 7394 on “The Law on the Evaluation of Immovable Property Owned by the Treasury and Amendment to the Value Added Tax Law and Amendments to Some Laws and Decrees” this rate has been determined as 25% to be applied to the corporate earnings of banks, companies under the Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies for the taxation period as of 2022.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

XVIII. EXPLANATIONS ON TAXATION (Continued):

a. Current tax (Continued):

However, with the Law No. 7456 published on 15 July 2023 the aforementioned rate has been increased to 30% to be applied to cumulative bases included in declarations to be submitted as of 1 October 2023. Starting from the advance tax return to be submitted for the period of 1 January 2023 to 31 December 2023, the corporate tax rate will be applied at 30% for subsequent periods.

In Turkey, no withholding tax is applied to dividends paid to resident companies or to non-resident companies earning income through a branch or permanent representative in Turkey. While the withholding tax rate on dividends paid to individuals and entities outside these categories is 10%, it was changed to 15% by the Presidential Decree published in the Official Gazette No. 32760 on 22 December 2024. The addition of profits to capital is not considered as profit distribution, and no withholding tax is applied.

With the Presidential Decision No.7343 published in the Official Gazette dated 7 July 2023, for fully liable capital companies whose shares are traded on Borsa Istanbul, a withholding tax of 0% is applied to the amounts considered as distributed profits related to the acquisition of their own shares. This amendment will be applicable to shares acquired as of 7 July 2023. For fully liable capital companies other than those mentioned, a withholding tax rate of 15% will be applied to the amounts considered as distributed profits related to the acquisition of their own shares as of 7 July 2023.

Corporations calculate and declare provisional taxes based on their quarterly financial profits, paying them until the evening of the 17th day of the second month following the end of each period. The provisional tax paid during the year is credited against the Corporate Tax calculated on the Corporate Tax Return to be submitted for the subsequent year. Despite the offset, if there is an excess amount of provisional tax paid, this amount can be refunded in cash or offset against other financial obligations to the government.

While the gains arising from the sale of equity interests, founding bonds, usufruct bonds, and pre-emption rights held by institutions in their assets for at least two full years were exempt from corporate tax, provided that 75% of these gains are kept in a special fund account in liabilities until the end of the fifth year following the year of the sale and are collected by the end of the second calendar year; with the Presidential Decision published in the Official Gazette on 27 November 2024, numbered 32735, it has been determined that the exemption rate will be applied at 50%.

In accordance with the repeated Article 298 of the Tax Procedure Law, if the increase in the producer price index is more than 100% in the last 3 accounting periods including the current period and more than 10% in the current accounting period, financial statements will be subject to inflation adjustment and these conditions have been realized as of 31 December 2021. However, with the “Law on Changes to the Tax Procedure Law and Corporate Tax Law” numbered 7352 published in the Official Gazette dates 29 January 2022, and numbered 31734, temporary article 33 has been added to the Tax Procedure Law numbered 213 and the 2021 and 2022 accounting periods, including the provisional tax periods (as of the accounting periods ending in 2022 and 2023 for those who are assigned a special accounting period) the financial statements as of 31 December 2023, will be subject to inflation adjustment within the scope of article 298 are realized, and the financial statements as of 31 December 2023, will be subject to inflation adjustment regardless of whether the conditions for inflation adjustment are met, and the profit/loss differences arising from the inflation adjustment will be recognized in retained earnings.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

XVIII. EXPLANATIONS ON TAXATION (continued):

a. Current Tax (continued):

According to Article 17 of the Law No. 7491 on Amendments to Certain Laws and Decree Laws published in the Official Gazette No. 32413 dated 28 December 2023, it has become law that profit/loss differences arising from the inflation adjustment to be made in the 2024 and 2025 accounting periods, including the provisional tax periods, do not be taken into account in determining the income of banks, companies within the scope of the Financial Leasing, Factoring, Financing and Savings Financing Companies Law No. 6361 dated 21 November 2012, payment and electronic money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies. The President of the Turkish Republic is authorized to extend the periods determined within the scope of this paragraph by one accounting period, including the temporary tax periods.

According to the Amendment Notification to the General Communiqué (Serial No: 547) on the Tax Procedure Law, published in the Official Gazette numbered 32073 dated 14 January 2023, the procedures and principles regarding the revaluation of real estate and depreciable economic assets have been revised. Accordingly, the Bank has revalued its real estate and depreciable economic assets in its balance sheet until 30 September 2023, provided that it meets the conditions specified in Temporary Article 32 of the Tax Procedure Law and Article 298/ç of the Tax Procedure Code. Since the financial statements are subject to inflation adjustment as of 31 December 2023, real estates and depreciable contingent assets are not subject to revaluation as of 31 December 2023. Corporate tax is calculated by taking into account of real estates and depreciation units’ amortized values which are calculated based on their revalued amounts until 30 September 2023.

b. Deferred Tax:

The Group calculates and accounts for deferred income taxes for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with “Turkish Accounting Standard for Income Taxes” (“TAS 12”) and the related decrees of the BRSA concerning income taxes.

According to TMS 12, in the consolidated financial statements, the deferred tax assets and liabilities of subsidiaries are presented separately in the assets and liabilities, without being offset.

Due to the fact that the change in the corporate tax rate that entered into force on 15 July 2023, will be taken into account in the taxation of corporate earnings for the periods valid from 1 January 2023, starting from 1 October 2023 under TAS 12, deferred tax has been calculated at the rate of 30% for assets and liabilities.

According to the temporary article 33 of the Tax Procedure Law, in the financial statements dated 31 December 2024, the tax effects resulting from the inflation reduction of corporate tax are included in the deferred tax programming as of 31 December 2024.

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):

XVIII. EXPLANATIONS ON TAXATION (continued):

c. Transfer Pricing:

Under Article 13 of the Corporate Tax Law, titled "Hidden Profit Distribution through Transfer Pricing," the subject of transfer pricing is addressed, and the "General Communiqué on Hidden Profit Distribution through Transfer Pricing," published on 18 November 2007, specifies the details of its implementation.

According to the relevant Communiqué, if tax payers engage in the purchase and sale of goods, services, or products with related entities (individuals) and these transactions are not conducted in line with the arm's length principle, it will be concluded that the related profits have been secretly distributed through transfer pricing. Such hidden profit distributions through transfer pricing cannot be deducted from the tax base for corporate tax purposes.

As stipulated in the General Communiqué No. 4 on Hidden Profit Distribution through Transfer Pricing, corporate tax taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Corporation and Hidden Capital Form" for any purchases or sales of goods or services made with related parties during an accounting period and submit it, along with the corporate tax return, to the relevant tax office.

XIX. EXPLANATIONS ON BORROWINGS:

The Group's fund resources in essence consist of borrowing from foreign financial institutions, issued securities and money market debt.

Financial liabilities and derivative transactions are valued with their fair values and other financial liabilities are carried at "amortized cost" using the effective interest method in the following periods.

The Group utilizes various hedging techniques to minimize the currency, interest rate and liquidity risks of its financial liabilities. No convertible bonds have been issued by the Group.

XX. EXPLANATIONS ON ISSUANCE OF SHARE CERTIFICATES:

Transaction costs regarding the issuance of share certificates are accounted under shareholders' equity after eliminating the tax effects.

XXI. EXPLANATIONS ON AVALIZED DRAFTS AND ACCEPTANCES:

Avalized drafts and acceptances shown as liabilities against assets are included in the "Off-balance sheet commitments".

XXII. EXPLANATIONS ON GOVERNMENT GRANTS:

As of 31 December 2024, the Group does not have any government incentives or grants (31 December 2023: None).

XXIII. EXPLANATIONS ON PROFIT RESERVES AND PROFIT DISTRIBUTION:

Retained earnings as per the statutory financial statements other than legal reserves are available for distribution, subject to the legal reserve requirement referred to below.

Under the Turkish Commercial Code ("TCC") the legal reserves are composed of first and second reserves. The TCC requires first reserves to be 5% of the profit until the total reserve is equal to 20% of issued and fully paid-in share capital. Second reserves are required to be 10% of all cash profit distributions that are in excess of 5% of the issued and fully paid-in share capital. However holding companies are exempt from this application. According to the Turkish Commercial Code, legal reserves can only be used to compensate accumulated losses and cannot be used for other purposes unless they exceed 50% of paid-in capital.

BURGAN BANK A.Ş.**EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF 31 DECEMBER 2024**

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES FOR THE RELEVANT PERIOD (Continued):**XXIV. EXPLANATIONS ON EARNINGS PER SHARE:**

Earnings per share disclosed in the income statement are calculated by dividing net profit/(loss) for the year to the weighted average number of shares outstanding during the period concerned.

	31 December 2024	31 December 2023
Net Income/(Loss) to be Appropriated to Ordinary Shareholders	3,504,623	2,560,304
Weighted Average Number of Issued Ordinary Shares (Thousand)	305,000,000	267,495,479
Earnings Per Ordinary Shares (Disclosed as 1,000 nominal in full TL)	11.491	9.571

Based on the Principal Agreement, the Parent Bank has 1,000,000 founder's shares. According to the Principal Agreement, after allocating 5% to legal reserves and distributing 5% of the paid in capital, 10% of distributable amount is distributed to the owners of the founder's shares.

In Turkey, companies can increase their share capital by making a pro-rata distribution of “Bonus shares” to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of “Bonus shares” issued without a corresponding change in resources by giving them a retroactive effect for the year in which they were issued and for each earlier period. In case bonus shares are distributed after the balance sheet date but before the preparation of the financial statements, earnings per share is calculated considering the new number of shares.

XXV. EXPLANATIONS ON RELATED PARTIES:

Parties defined in article 49 of the Banking Law No. 5411, Group’s senior management, and Board Members are deemed as related parties within the scope of TAS 24. Transactions regarding related parties are presented in Note V. of Section Five.

XXVI. EXPLANATIONS ON CASH AND CASH EQUIVALENTS:

For the purposes of the cash flow statement, “Cash” includes cash effectives, cash in transit, purchased cheques and demand deposits including balances with the Central Bank, and “Cash equivalents” include interbank money market placements, time deposits at banks with original maturity periods of less than three months and investments on marketable securities other than common stocks.

XXVII. EXPLANATIONS ON SEGMENT REPORTING:

Operational field is the distinguishable section of the Group that has different characteristics from other operational fields per earning and conducts the presentation of service group, associated bank products or a unique product. Operating segments are disclosed in Note XIII. in Section Four.

XXVIII. RECLASSIFICATIONS:

None.

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

SECTION FOUR

**INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE
GROUP ON A CONSOLIDATED BASIS**

I. EXPLANATIONS ON CONSOLIDATED EQUITY:

Total capital and Capital adequacy ratio have been calculated in accordance with the “Regulation on Equity of Banks” and “Regulation on Measurement and Assessment of Capital Adequacy of Banks”. As of 31 December 2024, the Group’s total consolidated capital has been calculated as TL 17,250,283 (31 December 2023: TL 13,212,118) and the consolidated Capital adequacy ratio is 21.93% (31 December 2023: 20.48%).

As of 31 December 2024, within the scope of BRSA’s instructions dated 21 December 2021, 28 April 2022 and 31 January 2023; in the calculation of the amount subject to credit risk, in accordance with the Regulation on Measurement and Evaluation of Capital Adequacy of Banks (Capital Adequacy Regulation) published in the Official Gazette dated 23 October 2015 and numbered 29511; when calculating the amounts of monetary assets and non-monetary assets other than items in foreign currency measured at historical cost, valued in accordance with Accounting Standards and related special provisions, Central Bank's foreign exchange buying rates as of 26 June 2023 was used and in case the net valuation differences of the securities held by the Bank in the portfolio of “Securities at Fair Value Reflected in Other Comprehensive Income” as of 1 January 2024 Decision date are negative, it is possible to ignore these differences in the amount of equity to be calculated in accordance with the Regulation on the Equity of Banks published in the Official Gazette dated 5 September 2013 and numbered 28756 and to be used for the capital adequacy ratio.

GROUP ON A CONSOLIDATED BASIS (Continued):**

I. EXPLANATIONS ON CONSOLIDATED EQUITY (Continued):

b. Explanations regarding the reconciliation of equity items and balance sheet amounts

The difference between Total Capital and Shareholders’ Equity in the unconsolidated balance sheet mainly arises from expected credit loss provisions (for stage I and stage II loans) and subordinated loans.

As stated in Article 8 of the Regulation on Equities of Banks, up to 1.25% of the amount constituting the basis for credit risk of the First and Second Stage Losses Provisions and 100% of the remaining maturity of the subordinate loans over the nominal amount until they fall below 5 years, and the remaining portion by decreasing by 20% for each year less than 5 years, are considered as the “Supplementary Capital” item in the equity calculation constituting the basis for capital adequacy. In addition; In accordance with the Regulation, the operating lease development costs and Intangible Fixed Assets balances monitored under the Tangible Fixed Assets item in the balance sheet are considered as a deduction item from core capital in the equity calculation constituting the basis for capital adequacy calculation.

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

II. EXPLANATIONS ON CONSOLIDATED CREDIT RISK

Credit risk represents the potential financial loss that the Parent Bank may incur as a result of defaults or non-fulfillment of the loan agreements obligations of counterparties.

In order to control and mitigate credit risk, the Parent Bank takes into consideration the payment capacity of the debtors, the confirmation of the fact that primary and secondary payment sources exist, the fact that provisions allocated for loans can cover expected credit losses, the fact that firms responsible for the valuation of collaterals are operating in accordance with competition rules, the fact that sectoral, geographical and regional concentration is avoided, the fact that the customer portfolio and loans provided are not diversified and credit risk is not common, the fact that information from all sources possible to evaluate or quantify the risks taken on a transaction or customer basis are collected the fact that the payment capacity of loans are monitored.

Credit rankings of borrowers that are present at loans and other accounts receivable accounts are monitored in accordance with the relevant legislation on a regular basis. Account status documents obtained for the issued credits are audited to make sure that the documents are meeting the requirements of the relevant legislation given that the cash transactions are exempted from this rule. As a result of regular monitoring of credit worthiness, credit limits have been changed when necessary. Loans and other receivables are collateralized considering the credit worthiness.

With respect to credit risk, debtor and debtor groups are subject to risk limitations envisaged in the Banking Law. There is no risk limitation in terms of geographical region while the sectoral concentration has been limited. Credit limits allocated are subject to revision at least once a year. The credit worthiness of the borrowers classified as “loans and other receivables under close monitoring” are revised at least twice a year due to Procedures and Principles regarding the regulation on classification of loans and provisions to be allocated for them. The loan limit is controlled by the main banking system and exceeding the specified limits is prohibited. When a revision becomes due, limits for which the loan worthiness has not been reviewed are suspended.

The Parent Bank's loan policy approved by the Board of Directors is reviewed a regular basis. In order to maintain the credit risk under control, there are additional limitations in the scope of Parent Bank credit policies apart from the Banking Law limitations. As defined in the document of credit policy, authorization of credit extension has been delegated to branches, the headquarters and the credit committee. Constraints on the use of these delegations;

- Collaterals, accepted as guarantees of loans issued, are clearly stated at credit policy.
- The Bank does not provide loans for arms manufacturers and traders, religious organizations, gambling companies, media companies, political organizations, sport clubs and companies operating in nuclear industry. Exceptions could be evaluated by the head office.
- Loans issued to the companies founded within last two years, real estate development companies and financial institutions as well as the investment projects, cash loan guarantees and refinancing loans are evaluated by headquarters and authorized upper management.
- Derivative products' limits cannot be allocated in Branch authorization. Foreign currency loans and counter party / external guarantees cannot be issued by branches.

The Parent Bank’s derivative transactions are mainly composed of foreign exchange and interest rate swaps money and interest options and forward transactions. The credit risks of these products are managed by deducting them from the company's credit limit, which is specified only for these types of transactions, in proportion to the term of the transaction. Market risk is managed by the Treasury, Capital market and Financial Institutions Group.

Indemnified non-cash credits are subjected to the same risk weight as the credits which are past due date.

The Group does not perform any kind of banking activity abroad.

In the current period, the share of the Group receivables due to cash loans extended to its top 100 and top 200 customers are 67%, 79% (31 December 2023: 73% and 82%) within the total cash loan portfolio.

In the current period, the share of the Group receivables due to non-cash loans extended to its top 100 and top 200 customers are 53%, 68% (31 December 2023: 48% and 66%) within the total non-cash loans portfolio.

In the current period, the share of the Group receivables due to the total of cash and non cash loans extended to its top 100 and top 200 customers are 63%, 76% (31 December 2023: 67% and 78%) within cash loans in balance sheet and non-cash loans in off-balance sheet.

The Group’s allocated expected credit losses for loans amounts to TL 507,481 (31 December 2023: TL 1,000,495).

BURGAN BANK A.Ş.**EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF 31 DECEMBER 2024**

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):**II. EXPLANATIONS ON CONSOLIDATED CREDIT RISK (Continued):****i. Information about the risk exposure categories**

In the standard approach calculations, the Group uses Fitch Credit Rating Institution ratings when determining the risk weights of risk classes in accordance with the "Communiqué on Measurement and Assessment of Capital Adequacy of Banks".

Fitch Credit Rating Institution ratings are taken into consideration when evaluating the entire class of receivables from central governments or central banks and receivable portfolios from financial institutions. Fitch Ratings are not taken into consideration for other risk classes.

The Fitch Rating assigned to a debtor is valid for all of the debtor's assets, no exception is made for a specific category of assets.

A Credit Rating Institution which is not included in the institution's mapping table is not taken into consideration in the credit risk amount calculation process.

j. Exposures by risk weights:

31 December 2024										
Risk Weights	0%	20%	35%	50%	75%	100%	150%	500%	Deductions from Equity	
1. Exposures before Credit Risk Mitigation	33,549,196	4,843,825	299,084	24,244,861	7,923,386	49,852,154	198,598	4,265	344,343	
2. Exposures after Credit Risks Mitigation	36,101,010	4,797,984	279,213	23,767,728	7,908,027	48,761,598	185,281	4,265	344,343	

(*) The Group mitigates the credit risk using the simple financial collateral methods.

31 December 2023										
Risk Weights	0%	20%	35%	50%	75%	100%	150%	200%	500%	Deductions from Equity
1. Exposures before Credit Risk Mitigation	21,019,739	3,828,120	297,625	13,635,144	1,493,192	32,805,553	3,280,039	5,334,154	1,558	-
2. Exposures after Credit Risks Mitigation	21,967,684	3,893,099	268,186	13,605,033	1,475,903	32,286,575	3,271,070	5,334,154	1,558	-

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT:
Risk Management Approach and Risk Weighted Amounts
a. Risk Management Approach of the Group:
1. The way risk profile of the Group is determined by business model and its interaction and risk appetite:

The Group prepares its business strategy and medium- and long-term plans including medium- and long-term growth objectives and makes an annual revision through reviewing. The Group reviews its business strategy and plans annually in a periodic manner and aforementioned business strategies are reviewed ad hoc and more frequently and can be revised if it is required by economic developments and market conditions. Risk appetite of the Group is designated in full compliance with its business strategy and main risks, which shall be taken due to main components of main activity area and business strategy of the Group, comprise main inputs of risk appetite determined by Board of Directors.

2. Risk management structure: Responsibilities assigned within the body of the Group:

Board of Directors is responsible for developing a risk appetite in compliance with business strategy of the Bank and establishing a risk management system in line with risk appetite. Board of Directors carries out activities such as definition, monitoring, reporting of the risk and developing risk mitigating measures through Audit Committee, Board of Directors Risk Committee, Risk Coordination Committee, Assets and Liabilities Committee (ALCO) and Risk Management Group, Internal Control Centre, Directorate of Supervisory Board and Compliance Departments.

Audit Committee controls whether provisions included in legislation related risk management and intra-group and implementation procedures approved by the Board of Directors are applied or not and makes recommendations to board of directors regarding measures which should be taken. It also evaluates whether there are method, instrument and implementations procedures required for identification, measurement, monitoring and controlling of Group’s risks or not.

Board of Directors Risk Committee is responsible for the development of risk management systems in line with business strategy and risk appetite of the Group, presentation of amendment recommendations related to risk management policies to Board of Directors and establishment of required method, instrument and implementation procedures in order to ensure identification, measurement, monitoring and reporting of risks by non-executive independent departments.

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

ALCO is responsible to monitor and manage structural asset-liability non-compliance of the Parent Bank together with the monitoring and controlling of liquidity and exchange risks through holding meetings on a weekly basis.

Risk Management Department, which carries out its activities independent from executive functions, consist of Credit Risk and Modelling Department operating under Credit and Market Risk Department, Market Risk Department and Operation Risk Department. Credit Risk and Modelling Department is responsible for defining, measuring, monitoring and reporting of outputs with respect to risks exposed by the Parent Bank and its partners which are subject to consolidation and sharing of solution recommendations for risk mitigation with related departments. Credit risk appetite limits, which are approved by Board of Directors, are monitored in specific periods and results are reported to Board of Directors and Senior Management. The department gives support to credit risk analysis through stress tests, reverse stress tests and scenario analysis. The department is also responsible for monitoring the results of internal rating systems and TFRS 9 models, conducting validation and calibration works.

Market Risk Department is responsible for defining, measuring, monitoring and reporting of outputs with respect to risks exposed by the Parent Bank and its partners which are subject to consolidation. The department is also responsible to monitor and report limits specified related to treasury risk parameters and liquidity risk. Limit-risk follow-up regarding counterparty credit risk, stress tests and scenario analysis are also under the responsibility of the department in question.

Operation Risk Department carries out definition, measurement, evaluation, controlling, mitigation, monitoring and reporting activities of operational risks. Internal Audit is responsible for the evaluation of operational risk management framework with its all aspects in an independent manner. The aforementioned evaluation includes both activities of business units and also activities of Operation Risk Management.

Internal Control Center carries out activities at secondary control level in order to monitor and report risks and develop measures reducing risks with executive departments. Directorate of Supervisory Board carries out required intra-company audits in order to reduce risks exposed by the Parent Bank to a minimum level.

Compliance Department carries out the function to monitor legislative amendments and validity and effective date of regulations and timely informing of related parties with respect to aforementioned issues. Regulations, which are directly or indirectly related to risks exposed by Parent Bank are shared with both executive and non-executive departments such as Risk Management Group.

3. Channels which are used to extend and apply risk culture in the Group:

Risk Management application is developed on Intranet platform for the purpose of increasing awareness of employees in order to extend risk culture within the body of the Group. Through this application, trainings and documents increasing awareness are shared with employees. Online trainings, related to risk management developed in order to raise awareness of employees, are shared with employees via remote training platform. Risk point of views of employees are supported through in-class trainings, if required.

Information on risk position of the Group, expected and unexpected loss estimations, impacts of negative conditions on balance sheet of the Group and realization levels of risk appetite limits determined by Board of Directors is share with Board of Directors, related committees and senior management by Risk Management Group through reports issued. If there exists an overflow on the risk appetite limits, related departments are informed in order to ensure taking of pre-determined measures and results are monitored by Risk Management Group.

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

4. Main components and scope of risk measurement systems:

Rating is used for corporate and commercial clients while score card and decision tree are used for retail loans in the Group in order to measure loan risk. Internal rating systems are designated in the framework of business strategy, risk appetite, regulations of authorities with respect to rating systems and internal policies and their performances are periodically monitored by Risk Management Group and results are reported to Board of Directors and senior management. On the other hand, validations and calibrations of rating models are carried out / coordinated by Credit Risk and Modelling Department. The Group has information systems enabling reporting according to sector, segment, branch, currency, maturity, internal rating grade and risk class of credit portfolio. Risk appetite limits determined in the Loan Risk Policy are monitored on a monthly basis and the results are reported to Board of Directors and senior management.

The Group determines internal limits which are revised in the framework of business model, strategy and risk appetite of the Group reviewed at least on an annual basis for exchange rate, interest, counterparty and liquidity risk which may be exposed. All limits are approved by Board of Directors and monitored in an effective manner by Board of Directors.

Basic Indicator Approach is used in order to determine capital requirement required for operational risk in accordance with legislations of BRSA. The Group registers operational risk situations in the operational risk database and performs risk control self-evaluation studies in order to raise awareness in operational risks, determine current operational risks and reduce possible negative impacts of such risks to minimum.

5. Disclosures on risk reporting processes provided to Board of Directors and senior management:

Risk Management Group reports results of analysis related to risks such as credit, liquidity and operational to Board of Directors, Audit Committee, Board of Directors Risk Committee, Risk Coordination Committee, ALCO and senior management. Reporting is made to Risk Coordination Committee and Board of Directors on a monthly basis while it is made to Audit Committee and Board of Directors Risk Committee on a quarterly basis.

Results of concentration and credit risk stress test based on sector, segment, maturity, collateral, currency, internal rating grade of credit; structural interest rate risk sourcing from banking accounts, details related to derivatives, liquidity analysis, stress tests made related to counterparty credit risk, deposit concentration, realizations related to risk appetite limits of market and liquidity; historical developments of operational risks based on loss categories and their distribution based on Parent Bank and subsidiaries are included in aforementioned reports.

6. Disclosures on Stress Test:

The Group makes stress tests for risk categories of credit, market, liquidity and operational risk both in scope of Internal Capital Adequacy Assessment Process (ICAAP) and also as periodical internal and results are shared with Board of Directors, senior management and audit authority, if required.

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

The Group considers scenarios announced by BRSA and pre-determined negative and extremely negative scenarios for stress tests made in scope of ICAAP. Scenarios are determined through taking macro-economic variables, business strategy and risk appetite of the Group and negative past conditions into account. In scope of ICAAP, both particular and also total stress tests are made based on significant risk types.

Internal periodic stress tests are made in the framework of scenarios determined internally in accordance with portfolio, business strategy, risk appetite and retrospective estimations of the Bank. The Bank prepares its internal periodic stress tests through benefiting from sensitivity analysis, stress test, reverse stress test and scenarios analysis instruments. Credit risk stress tests include scenarios such as depreciation of Turkish Lira, increase in overdue receivables and decrease in real estate values. On the other hand, reverse stress tests towards risk appetite limits through scenario analysis related to concentration index are periodically made. Scenario analyzes are carried out regarding the impact of fluctuations in macroeconomic indicators on the expected loss provision, and the results are shared with the senior management.

Impact of each shock on profitability and capital is measured in stress tests made in scope of Market Risk. Risk factors, for which a shock is applied, are exchange rates, interests and prices of shares. Foreign exchange position gain/loss sourcing from sudden exchange and interest movements, banking activities, impact of Interbank transactions and Commercial Funding on capital, bond, derivative and share portfolio gain/loss are calculated in stress tests.

Impact of exchange, volatility and interest shocks on derivative portfolio specific for customer is reviewed in scope of Counterparty Credit Risk stress tests and results are discussed in related committees.

In scope of operational risk tests, loss estimation is made through statistical methods via taking historical loss data into account and its effect on capital requirement is reviewed.

7. Risk management, hedging and mitigation strategies and process of the group sourcing from its business model and Monitoring processes of continuing effects of protection and mitigation

The Group includes collaterals in Communique on Credit Risk Mitigation Techniques to credit risk mitigation with respect to capital requirements calculations and those collaterals are used in calculations over their consideration rates in the aforementioned communique. The operational conditions mentioned in the related Communique should be met in order to be able to include collaterals in credit risk mitigation.

Determination of actions towards mitigation through evaluating risks exposed in current processes, key risk indicators and loss events, use of support services and pre-evaluation studies of implementation procedures and policies of new products are carried out in order to mitigate risk which are exposed or shall be exposed in operational risk management. Insurances towards risk mitigation are made. Risk mitigation exposed due to a cut-off is aimed to be reduced through Business Continuity Plan approved by Board of Directors ensuring the continuity of operations in reasonable periods. In this scope, Business Continuity Plan is periodically tested and required updates are made.

3. Disclosures on Differences between Amounts valued in accordance with TAS and Risk Exposures

There is no difference between the Group’s accounting and legal consolidation scope.

There exists no difference between accounting and legal consolidation scopes of the Group. Significant differences between amounts valued in accordance with TAS and Risk exposures source from securities and derivatives. Securities mentioned in repo transaction in financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income are designated in Money Markets Debts item. For derivative transactions, the Group has foreign exchange swap and interest swap products which are monitored under trading accounts and made for structural interest rate risk and liquidity risk management. Therefore, those products should not be considered in scope of market risk although they are monitored under trading accounts in accordance with TAS.

Valuation methodologies, including disclosure on using of market value and model value methodologies, performs valuation of financial assets of the Parent Bank tracked under trading accounts on a daily basis. Market prices, obtained from independent data providers, are kept in treasury system and valuations are made systemically.

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

Market values of products such as forward exchange, foreign exchange swaps and interest swaps traded in over the counter markets are calculated based on discounting of cash flows over market interest rates. Globally accepted valuation methodologies are used for option products.

The Parent Bank uses weighted average prices for securities trades in BIST for Turkish Lira securities portfolio while it uses prices in nature of indicator announced by Central Bank for securities not traded on BIST. Market average prices, obtained from independent data providers, are used for foreign currency securities.

Description of independent price approval processes: The Parent Bank obtains market prices, which shall be used in valuation, from independent data providers and manages through checkpoints established independent from risk generating unit/departments. Valuation prices are determined through collection of data in treasury system for risk factors exposed at a pre-determined hour in each day. The aforementioned data is formed following an inquiry executed by Information Technologies without the interruption of any users. Prices, which shall be used in valuations, are controlled by Market Risk Department on a daily basis.

Besides, Market Risk Department methodologically controls, and documents yield curves, valuation methods and accuracy of fair value calculations periodically.

Processes for valuations adjustments or differences: The Group does not make valuation adjustment since financial assets recognized at fair value are traded on an active market.

c. Credit Risk Disclosures

1. General Qualitative Information on Credit Risk:

i. Conversion of Bank’s business model to components of credit risk profile:

The Group has forward-looking measurement and forecast instruments which are sensitive to risk and including appropriate information technology applications and management information systems in order to take expected or unexpected losses into account in all types of risk under both normal and also negative market conditions. The conversion of business model to components in risk profile is digitized through aforementioned instruments. The Group especially uses stress test and scenario analysis in order to measure effects of negative conditions on the Group’s portfolio and business strategy and risk appetite to the Group is considered while determining parameters for respective analysis.

ii. Criteria and approach used during the determination of credit risk policy and credit risk limits:

The Group determines short-, medium- and long-term credit strategies in line with business strategy and risk appetite and performs studies in line with criteria details in policies of credit policies and credit risk policies in order to minimize expected and unexpected losses exposed due to credit operations. Credit policies determines procedures related to crediting, monitoring, collection and administrative and legal proceedings based on prudent man and applicability principles. Besides, general framework of credit risk studies made in order to execute credit risk in an efficient manner which is requested by legal authorities.

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

ii. Criteria and approach used during the determination of credit risk policy and credit risk limits (continued):

Therefore, Credit Risk Policy, forming top level framework of credit risk studies of the Group, and credit risk limits detailed in this document are determined based on legal requirements, business strategy of the Group, credit strategy, risk appetite and credit policies and reviewed at least annually and updated, if required. Business strategy, risk appetite and retrospective portfolio realizations are taken into consideration while determining credit risk limits. On the other hand, methods such as stress test and reverse stress test are used during the determination of limit levels.

iii. Structure and organization of credit risk management and control function

All of the process related to direct or indirect credit allocation, extension, monitoring and operation of the Group in favour of individuals or legal entities are reviewed in scope of credit risk management. In this context, first level of controls is detailed in credit policies and implementation principles. Internal rating systems are benefited as well as credit allocation processes in order to measure creditability of customers.

Credit risk studies in scope of capital adequacy are carried out by Credit Risk and Modelling Department within the body of Risk Management Group in the framework of Credit Risk Policy. Credit Risk Policy include activities related to credit risk management, credit risk management organization, related parties and their responsibilities and duties, main principles, implementations, limits and reporting determine in credit risk management.

Duties and responsibilities of Risk Management Group Credit Risk and Modelling Department with respect to credit risk management are as follows:

- To make principal amount calculations subject to legal credit risk in the framework of determined rules by related regulations of BRSA and to monitor up-to-datedness of application used in this scope,
- To report results of analysis related to risk definition, measurement, analysis, monitoring and portfolio subject to in/off balance sheet credit risks to senior management in scope of Credit Risk Policy approved by Board of Directors and related application principles,
- To support development of rating/score card models for corporate, commercial and retail credits, to monitor their performances and to participate/coordinate their validation studies,
- To perform credit risk stress test, reverse stress test and scenario analysis determined through related regulations of BRSA and approved by Board of Directors and to share respective results with Risk Coordination Committee, senior management, Audit Committee, Board of Directors Risk Committee and Board of Directors,

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

- To make probability of default (PD), loss given default (LGD) and residual risk calculations based on internal rating models and share opinion and recommendations for the establishment of infrastructure for aforementioned calculations,
- To analyse credits portfolio through applying stress test, reverse stress test and scenario analysis, if required, for credit risk management,
- To monitor, report risk appetite limits determined in Credit Risk Policy periodically and share opinion and recommendations in revision of risk appetite limits,
- To share recommendations developed for stress test and scenario analysis in order to be presented to Board of Directors, with Risk Coordination Committee and Risk Committee,
- To monitor the performance of TFRS 9 models, to perform and/or to coordinate model revision, validation and calibration works.

iv. Relation between credit risk management, risk control, legal compliance and internal audit functions:

Three lines control mechanism is established in order manage credit risk and to reduce expected and unexpected losses to a minimum level at the Group. The first line of controls are performed by executive units and include controls in entering into credit relation with customers having high level of creditability, credit allocation, crediting, repayment and monitoring phases. The second line of controls include activities performed by Risk Management Group and Internal Control Department and consist of definition, measurement, monitoring, reporting of risks and development of measures which shall reduce credit risk with executive departments. The third line of controls are performed by Supervisory Board. Directorate of Supervisory Board carries out required intra-company audits in order to reduce risks exposed by the Bank to a minimum level.

Compliance Department carries out the function to monitor legislative amendments and validity and effective date of regulations and timely informing of related parties with respect to aforementioned issues. Regulations, which are directly or indirectly related to risks exposed by Bank are shared with both executive and non-executive departments such as Risk Management Group.

Internal Audit function is executed by Directorate of Supervisory Board at the Bank. In this context, evaluations with respect to credit risk are carried out by Directorate of Supervisory Board through taking risks exposed by the Parent Bank and related controls into account in the framework of annual audit plans. Assurance is provided on effectiveness and sufficiency of internal control and risk management strategies related to credit risk activity field executed towards strategies and objectives of the Group through credit risk management in scope of headquarters unit and process audits and branch audits including participation of Directorate of Supervisory Board.

Managers of Risk Management Group, Internal Control Centre, Compliance Department and Directorate of Supervisory Board inform members of Committee through holding Risk Coordination Committee on a monthly basis and Audit Committee and Board of Directors Risk Committee meetings held on quarterly basis. Issues determined in the framework of second and third level of controls are examined in meetings for credit risk management and risk mitigation measures are reviewed. Those departments report to Board of Directors through Audit Committee and Board of Directors Risk Committee.

BURGAN BANK A.Ş.**EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF 31 DECEMBER 2024**

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

**INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE
GROUP ON A CONSOLIDATED BASIS (Continued):****III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):****4. Additional Disclosures Related to Credit Quality of Assets:****i. Scope and descriptions of “overdue” receivables and “provisioned” receivables which are used for accounting and differences between descriptions of “overdue” and “provisioned”, if available:**

Receivables having a delay of more than 90 days are defined as “overdue receivables”. There is no difference between “overdue receivable” and “provisioned” definitions since whole overdue receivables are subject to the calculation of provision.

ii. Part of overdue receivables (more than 90 days) which are not evaluated as “provisioned” and reasons for this application:

None.

iii. Descriptions of methods used while determining provision amounts:

As of 1 January 2018, in accordance with the Communiqué related to “Procedures and Principals regarding Classification of Loans and Allowances Allocated for Such Loans” published in the Official Gazette no. 29750 dated 22 June 2016, the Group has started to allocate a loss allowance for expected credit losses on financial assets and loans measured at amortized cost in accordance with TFRS 9. In this context, as of 31 December 2017, the credit loss allowance method within the framework of the BRSA’s related legislation has been changed to the loss allowance for expected credit losses model with the implementation of TFRS 9. The predictions of expected credit loss forecasts include credible information, which is objective, probability-weighted, supportable about past events, current conditions, and forecasts of future economic conditions.

iv. Descriptions of restructured receivables:

Loans and other receivables can be restructured, through providing additional loan, if required, or linked to a repayment schedule in order to provide collection of receivable of the Bank and provide liquidity capacity to debtor if the non-fulfillment of liabilities related to credits and other receivables is sourcing from temporary liquidity deficiency in accordance with principles of the regulation.

v. Breakdown of receivables according to geographical regions, sector and residual maturity:

Separation of receivables according to geographical area (cash and non-cash loans, leasing receivables and non-performing loans):

	31 December 2024	31 December 2023

The effect of the amounts written off during the period within the scope of TFRS 9 on the non-performing loan ratio is 0.01% (31 December 2023: 0.37%).

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

vii. Breakdown of restructured receivables based on being provisioned or not.

Specific and general provision are allocated for restructured receivables and free provision is allocated for miscellaneous risks, if required, in accordance with TFRS 9 and the Communiqué Related to Principles and Procedures on Classification of Loans and the Provisions to be allocated for These Loans” and there is no situation in which no provision is made.

d. Credit Risk Mitigation

1. Qualitative disclosure on credit risk mitigation techniques:

Collaterals obtained as guarantees of credits are secondary repayment sources of credits. Therefore, it should be considered that market values of assets and commitments, obtained as collaterals, are measurable and whether they have a second-hand market or not. Collaterals accepted by Groups are listed in Corporate Credit Policy and its annexes.

Collaterals, which should be received as a guarantee for each credit and credit collateral ratio with respect to those collaterals are determined during the allocation of credits. Related approval authority is authorized to determine a credit collateral ratio for each customer and credit. If assets traded on markets having higher level of volatility are received as collaterals, whether the currency of the loan to be extended and the currency of the asset traded in the market are different, a prudential credit collateral rate is determined through considering maturity of the credit and price volatility of the asset.

Short term fluctuations in fair value of assets are not considered in evaluation of collaterals. Regular reviews of collaterals such as property and cheque whose change of value and translation to cash ability cannot be monitored simultaneously are made. Market value of properties received as collateral are reviewed in accordance with rules determined by BRSA and internal rules determined in related policies.

Insuring of collaterals against possible losses is preferred, when possible.

In collateralized credit transactions, if it is established as a result of revaluations tests made on collaterals that there exist an impairment and therefore the collaterals received remained under credit collateral ratio, additional collateral should be received.

Establishment of type of collateral guarantor in a versatility preventing concentration on collateral providers and geography, is one of the main principles.

The Group considers collaterals in its calculations for principal amount subject to credit risk in accordance with rules mentioned in Communiqué on Measurement and Evaluation of Bank’s Capital Adequacy and its annexes and Communiqué on Risk Mitigation Techniques.

e. Credit Risk if the Standard Approach is used**1. Qualitative Disclosures which shall be made related to Rating Grades used in the calculation of
Credit Risk with Standard Approach by Banks**

Fitch Grades are used for receivable classifications set out in credit risk standard approach calculations by the Group.

Fitch Rating Grades are taken into account by risk receivables from centralized administrations or from central banks and by foreign banks or by the financial institutions receivables portfolio.

Fitch Marks assigned to a debtor is taken into account for all assets of the debtor, no exception is made for a significant category of assets.

CRA's which are not included in the twinning table of the institution, are not used.

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

f. Disclosures regarding Counterparty Credit Risk

1. Qualitative Disclosures on Counterparty Credit Risk

i. Objectives and policies of risk management with respect to CCR

Counterparty credit risk states default risk of counterparty, which is a party to a transaction imposing an obligation to both parties, going into default before the final payment included in cash flow of the transaction in question. Derivative financial instruments, repo and reverse repo transactions, securities and commodities lending transactions, transactions having long clearing process and margin trading transactions are considered in the aforementioned scope. The Group ensures timely and accurate briefing for senior management and related departments and assignment of appropriate staff for measurement and monitoring for the purpose of an effective counterparty credit risk management. Senior Management is responsible for understanding significance and level of counterparty credit risk taken by the Group.

The Group allocates limits approved on the basis of customer and approved in different level of authorization in order to manage counterparty credit risk. Those limits are determined in a way including risk, which shall be taken, instrument and maturity information and periodically reviewed.

Activities, job definitions and responsibilities related to management, measurement, monitoring and reporting of counterparty credit risk are determined through policies and procedures. Counterparty credit risks can be simultaneously controlled on treasury system and early warning limit excess mechanisms are triggered if the use of limits is over 80%.

The Parent Bank uses mark-to-market approach in order to measure counterparty credit risk and therefore, determines coefficients (add-on) used in order to add current market value through multiplying nominal amount of transaction for the purpose of establishing the risk exposed by counterparty until the maturity. Aforementioned coefficients are calculated based on market data obtained from independent data providers and it is principal that aforementioned coefficients should be lower than coefficients determined in Part 3 of Annex -2 of Communique on Measurement and Evaluation of Bank’s Capital Adequacy prepared by BRSA and coefficients used in legal capital calculations. Market Risk Department reviews add-on coefficients with updated market data periodically reserving its right to update add-on coefficients more frequently if the volatility increases.

Besides, senior management is periodically supported with stress tests for business lines, Treasury and Credit Allocation decision making processes. With monthly meetings, the business lines, Treasury, Credit Allocation, Monitoring and Risk Management teams evaluate the stress test results.

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

ii. Operational limit allocation method determined in scope of calculated internal capital for CCR and central counterparty risk,

The Group assigns limits mentioned in transactions causing counterparty credit risk and central counterparty credit risk in accordance with principles determined in credit policies. It is principal to select customers having a high creditability and sufficient collateral conditions. Therefore, compliance of off-balance sheet transactions subject to CCR to in-balance sheet position of the customer in addition to creditability and collateral conditions of the customer, should be especially considered while allocating limits of the customer subject to such risks. Exchange rate and maturity compliance of in/off balance sheet transactions of the Customer and the customer having a foreign currency income reducing foreign currency risk to a minimum level are other important components which are considered while allocating aforementioned limits. The Group should be careful in not allocating high level of leverage and/or long-term off-balance sheet transaction limits.

The Parent Bank performs its treasury limit allocation in line with its Financial Institutions Credit Allocation and Borrowing Policy for those whose counterparty is a financial institution.

Daily Exchange Limit, Total Lending Limits, Issuer limit, Limit before Exchange and Total nominal limit are allocated for financial institutions.

A limit before exchange is allocated for customers apart from financial institutions.

There is a minimal CCP risk exposure due to the future transactions carried out by the Group in Takasbank market and within the scope of the products offered by Burgan Yatırım A.Ş to its customers.

iii. Policies towards determination of Guarantee and other risk mitigations and CCR including central counterparty risk,

International Swaps and Derivatives Association (ISDA), Credit Support Annex (CSA) and/or Global Master Repurchase Agreement (GMRA), which have international validity, are concluded in counterparty credit risk management with respect to financial institutions and collateral management process is operated on a daily basis.

Collateralization principles and procedures within the framework of credit policies applied at Group for companies apart from financial institutions and individuals.

iv. Rules with respect to Counter-trend risk,

The Parent Bank uses results of counterparty stress test performed periodically related to counter-trend risk and evaluates impact of deterioration in macro-economic conditions on credit risk of the customer. If it exists on a Group basis, the specific reverse tendency risk is monitored regularly with reports.

III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):

g. Securitization Disclosures:

None.

j. Disclosures on Market Risk

1. Qualitative Information which shall be Disclosed to Public Related to Market Risk

- i. The Group defines market risk as the potential financial loss which may occur as a result of fluctuations in capital markets. The aforementioned loss can occur due to fluctuations on share prices, interest rates, commodity prices and exchange rate.

The purpose of controlling and observance on market risk is to control and monitor impacts of markets risks on gain and economic value. In a more detail expression, the purpose of market risk control and audit is to protect Group from unexpected market losses and to establish transparent, objective and consistent market risk information which shall form a basis for decision making process.

Market Risk exposed by the Parent Bank is managed by Treasury, Capital Markets and Financial Institutions. The risk which the subsidiaries are exposed to is managed by the Treasury and Financial Institutions departments of Burgan Securities and Burgan Leasing which operate independently from the Parent Bank. The Parent Bank limits the market risk which shall be exposed for different risk factors in the framework of risk appetite. The framework of the limit and tracking method is determined with Treasury Risk Parameters document approved by Board of Directors and limits are reviews at least on an annual basis.

- ii. Management of market risk is under responsibility of Treasury, Capital Markets and Financial Markets, which generate risk at primary level. Secondary degree controls are provided through independent risk management and internal control functions. Treasury Internal Control Department is established under Market Risk Department and Directorate of Internal Control Centre which operates independent of risk generating departments/units in the framework of authorizations and frameworks described at the Group.

Third level of controls are made through audits of treasury processes and market risk management made periodically by Directorate of Supervisory Board. The audits in question reviews compliance of market risk management to BRSA regulations related to market risk and policy and procedures of Group and Bank, monitoring of limit usages and reporting related to limit excesses and market risk.

- iii. The Parent Bank uses Historical Simulation Method as internal method in order to digitize value at market risk. Unilateral 99% trust range, historical data belonging to working days in past two years and 10 days of holding period are taken into consideration in the calculation. The Parent Bank also calculates stress risk at value on a daily basis.

Treasury Risk Parameters are monitored by Market Risk Department during the day and at the end of day and use of limits and related other analysis are reported to ALCO, Risk Committee, Audit Committee, Risk Coordination Committee and Board of Directors.

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):**III. EXPLANATIONS ON CONSOLIDATED RISK MANAGEMENT (Continued):**

Early warning levels for limit usage are determined and the way, which shall be applied in case of an early warning or final limit excess, is stated clearly in Board of Directors approved policies.

Risk parameters include different type of limits such as foreign currency position limit, nominal, maturity, foreign exchange breakdowns related to bond portfolio, value at risk limits, limits related to interest rate (DV01), option vega limits and loss limits determined for trading portfolio. Some of these limits are monitored on consolidated basis, while others are monitored by the subsidiaries via independent limits from the Parent Bank, however all usages are followed up through daily reporting in the Parent Bank.

**INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE
GROUP ON A CONSOLIDATED BASIS (Continued):****IV. EXPLANATIONS ON CONSOLIDATED OPERATIONAL RISK:**

The amount subject to operational risk is calculated once a year by using the “Basic Indicator Approach” in the “Regulation on Measurement and Evaluation of Capital Adequacy of Banks” published in the Official Gazette No. 28337 dated 28 June 2012. The operational risk capital requirement dated 31 December 2024 has been calculated using the income in 2021, 2022 and 2023.

Annual gross income is calculated through deducting profit/loss sourcing from sales of securities whose accounts are tracked in fair value through other comprehensive income and measured at amortized cost, and extraordinary income, activity expenses made in return for support service and amounts compensated from insurance from total of net amount of interest revenues and non-interest revenue.

	2 Prior Period Value	1 Prior Period Value	Current Period value	Total / Total number of years for which gross income is positive	Rate (%)	Total
31 December 2024						
Gross Income	1,081,368	2,460,725	4,366,262	2,636,118	15	395,418
Amount subject to operational risk (Total*12.5)						4,942,722

	2 Prior Period Value	1 Prior Period Value	Current Period value	Total / Total number of years for which gross income is positive	Rate (%)	Total
31 December 2023						
Gross Income	891,664	1,081,368	2,460,725	1,477,919	15	221,688
Amount subject to operational risk (Total*12.5)						2,771,098

**INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE
GROUP ON A CONSOLIDATED BASIS (Continued):****V. EXPLANATIONS ON CONSOLIDATED CURRENCY RISK:**

The difference between the Group’s foreign currency denominated and foreign currency indexed on- and off-balance sheet assets and liabilities is defined as the “Net Foreign Currency Position” and it is the basis of currency risk. Another important dimension of the currency risk is the change in the exchange rates of different foreign currencies in “Net Foreign Currency Position” (cross currency risk).

A series of limits for the tenure of spot and forward foreign exchange positions are set by the Board of Directors annually. The Group has a short-term conservative foreign currency position management policy.

The Parent Bank’s publicly announced foreign exchange bid rates as of the date of the financial statements and for the last five days prior to that date:

	EUR		USD	
	31 December 2024	31 December 2023	31 December 2024	31 December 2023

Bid Rate	TL 36.7362	TL 32.5739	TL 35.2803	TL 29.4382
1st Day’s Currency Buying Rate	TL 36.7362	TL 32.5739	TL 35.2803	TL 29.4382
2nd Day’s Currency Buying Rate	TL 36.7429	TL 32.6937	TL 35.2233	TL 29.3973
3rd Day’s Currency Buying Rate	TL 36.6134	TL 32.4186	TL 35.1368	TL 29.3374
4th Day’s Currency Buying Rate	TL 36.6076	TL 32.2421	TL 35.2033	TL 29.2647
5th Day’s Currency Buying Rate	TL 36.6592	TL 32.1766	TL 35.2162	TL 29.2108

The simple arithmetic average of the Parent Bank’s foreign exchange bid rates for the last thirty days preceding the balance sheet date for major foreign currencies are shown below:

	EUR		USD	
	31 December 2024	31 December 2023	31 December 2024	31 December 2023
Arithmetic average – 30 days	TL 36.5807	TL 31.7509	TL 34.9369	TL 29.0619

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

VI. EXPLANATIONS ON CONSOLIDATED INTEREST RATE RISK:

Interest rate risk is the risk that expresses the effects of fluctuations in the market interest rates on the value increase/decrease of the Bank’s interest rate sensitive assets and liabilities. The interest sensitivity of risks regarding the interest rate both on the on-balance sheet and off-balance sheet are monitored following several analyses and are discussed in Asset and Liability Committee weekly.

The Group closely monitors the maturity gap between liabilities and assets that may arise in the balance sheet to manage the interest rate risk better. Additionally, interest rate swaps and cross currency swaps that are followed under banking accounts and aim to hedge risks are conducted by the Treasury, Capital Markets and Financial Institutions Group. Liquidity management is critical in the combination of investments, fair value through other comprehensive income and the trading portfolio. Through using these precautions, the possible loss effects on the shareholders’ equity due to both credit risk and interest risk during the volatile periods of the market are minimized.

a. Interest rate sensitivity of assets, liabilities and off-balance sheet items based on repricing dates (As for the remaining time to repricing):

VI. EXPLANATIONS ON CONSOLIDATED INTEREST RATE RISK (Continued):

c. Interest rate risk resulting from banking accounts

- The measurement frequency of the interest rate risk with important estimations including those relating to the quality of the interest rate resulting from banking accounts, advance loan repayment and movements of deposits other than time deposits is explained by the following:

Interest rate risk resulting from the Banking accounts is measured according to the month-end balance in accordance with “Regulation No. 28034 on Measurement and Evaluation of Interest Rate Risk resulting from Banking Accounts with Standard Shock Method”, dated 23 August 2011.

Interest sensitive items are taken into consideration in accordance with the re-pricing period and depending on the estimated cash flows. Demand deposits are taken into account based on the core deposit calculations. The change calculated by implementing interest rate shocks on the differences created in accordance with the re-pricing periods of the assets and liabilities in the banking accounts is proportioned to the equities.

- The table below presents the economic value differences of the Parent Bank resulting from fluctuations in interest rates in accordance with the “Regulation on Measurement and Evaluation of Interest Rate Risk resulting from Banking Accounts with Standard Shock Method” under sections divided into different currencies.

Currency	Applied Shock (+/- x basis point)	Earnings/Losses	Earnings/ Equities-Losses/Equities
1. TL	+500 bp	(6,747)	0.0%
2. TL	-400 bp	757	0.0%
3. EUR	+200 bp	(533,677)	(3.1%)
4. EUR	-200 bp	610,933	3.5%
5. USD	+200 bp	(666,919)	(3.9%)
6. USD	-200 bp	802,760	4.7%
Total (For Negative Shocks)		1,414,450	8.2%
Total (For Positive Shocks)		(1,207,343)	(7.0%)

BURGAN BANK A.Ş.

EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2024

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

VIII. EXPLANATIONS ON CONSOLIDATED LIQUIDITY RISK MANAGEMENT AND THE CONSOLIDATED LIQUIDITY COVERAGE RATIO:

Liquidity risk is the risk generated as a result of not having an effect or cash inflow at a level which can meet cash outflow, formed because of an imbalance in cash flow, timely and completely.

Effective liquidity risk management requires assigning appropriate staff for measurement and monitoring and timely informing management of the Bank. Board of directors and senior management is responsible to understand the nature and level of the liquidity risk taken by the Parent Bank and the instruments measuring these risks. Additionally, Board of Directors and Senior Management are responsible for the compliance of funding strategies to risk tolerance which is determined to be applied.

Liquidity risk management framework of the Parent Bank is determined with “Burgan Bank Risk Management Policy” and “Burgan Bank Liquidity Risk Policy” documents approved by Bank’s Board of Directors and “Burgan Bank Risk Management Policy” and “Burgan Bank Treasury Policy” and “Burgan Bank Assets & Liabilities Management Committee (ALCO)” in scope of banking legislation.

Liquidity management is primarily under the responsibility of ALCO in accordance with the Liquidity Risk Management of the Bank. Treasury, Capital Markets and Financial Corporations Group are responsible to perform required actions in accordance with the liquidity standards determined in accordance with the Liquidity Risk Policy. Market Risk Departments is secondarily responsible and it is responsible to control and report compliance with the limits. Detailed information (frequency of reports and the authorities to which they are presented) related to periodic and specific reports related to liquidity risk, stress tests, scenario tests, scenario analysis, compliance with risk limits and legal liquidity reports are included in Liquidity Risk Policy of the Bank.

Liquidity risk exposed by the Parent Bank, risk appetite, liquidity risk reduction appropriate to liquidity and funding policies (diversification of funding sources and maturities, derivative transactions), establishment of effective control environment, risk limits, early warning and triggering market indicators are managed through monitoring closely.

The liquidity risk is removed by short term placements, liquid marketable assets wallet and strong equity structure in the management of liquidity risk. Board of Directors of Bank can perform limit reduction regardless of credit value in current placement limits when the volatility in markets increases. Management of the Parent Bank and ALCO monitors possible marginal costs of payments and spurts as a result of studies made in scope of scenario analysis while tracking interest margin in diversified maturity segments between assets and liabilities. Borrowing limits which can be used in short-term for spurts from Central Bank, BIST Repo Market, Takasbank Money Market and banks are applied at a minimum level. The Parent Bank does not need to use these sources because of its current liquidity position but it uses the aforementioned limits for short-term transaction opportunities. Assets, liabilities and positions on the basis of main types of currencies (currencies forming at least 5% of Bank’s total liabilities) are managed under the control of Treasury and Capital Markets.

BURGAN BANK A.Ş.

**EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF 31 DECEMBER 2024**

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

**INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE
GROUP ON A CONSOLIDATED BASIS (Continued):**

**VIII. EXPLANATIONS ON CONSOLIDATED LIQUIDITY RISK MANAGEMENT AND THE
CONSOLIDATED LIQUIDITY COVERAGE RATIO (Continued):**

The Parent Bank and subsidiaries subject to consolidation are responsible to be in accord with the minimum liquidity restrictions that are set by legislation and consolidated and unconsolidated liquidity restrictions that is determined in the Bank’s Liquidity Risk Policy There should be no excess in liquidity limits in accordance with the Bank’s policy. Acceptation of current risk level, reduction or termination of activities causing to risk are evaluated for the risk which are not reduced. The actions, which shall be taken if there is an excess in the legal and internal limits, are detailed in Liquidity Risk Policy of the Bank. Overflow which is formed in liquidity ratios tracked according to legal limitations is eliminated in the period which is also determined by legal legislation.

Triggering market indicators are indicators which are tracked as early warning signals before the transition to stress environment which can form in the market as a result of ordinary business condition. Early warning limits related to liquidity risk in Bank are determined and aforementioned limits are monitored closely with the triggering market indicators.

Market Risk Department reports results of scenarios related to liquidity risk to Board of Directors, Risk Coordination Committee, Risk Committee and ALCO through making monthly calculations based on stress scenarios. These stress tests identify negative market conditions and potential fund outflows which occur in funding resources in a liquidity crisis. The purpose of stress test is to inform related committees and Board of Directors regarding liquidity outflows and derogation which can occur in the liquidity ratios of the Bank. Required actions are taken by ALCO if there are similar situations mentioned in stress scenarios. Market Risk Unit conducts stress tests more frequently during periods of high volatility and shares the results with the relevant management.

The Parent Bank has a central funding institution function in its relations with partners. Intra-group liquidity management and funding strategies are limited to related legal limitations.

BURGAN BANK A.Ş.**EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF 31 DECEMBER 2024**

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):**VIII. EXPLANATIONS ON CONSOLIDATED LIQUIDITY RISK MANAGEMENT AND THE CONSOLIDATED LIQUIDITY COVERAGE RATIO (Continued):**

Liquidity coverage rate is calculated through estimating high-quality liquid assets owned by the Bank to net cash out flows based on 30 days of maturity. Balance items which are determinant on the ratio are sorted as required reserves kept in Central Bank of Turkey, securities which are not subject to repo/guarantee, deposit having a corporate transaction, banks deposits, foreign sourced funds and receivables from banks. The impacts of aforementioned items on liquidity coverage ratio are higher than other items since they have a higher share in liquid assets and net cash out flows and they can change in time.

High quality liquid assets of the Group consist of accounts in Central Bank of Turkey, at a ratio of 34% and securities issued by Undersecretariat of Treasury at a ratio of 63%. The fund resources are distributed among deposits of individuals and retail, at a rate of 14%, corporate deposits at a rate of 32% and bank debts at a rate of 29%.

Fluctuations in foreign currency derivative transaction volumes, mainly in foreign currency swaps, can have an impact on foreign currency liquidity coverage rate although derivative transactions generate a lower level of net cash flow with respect to liquidity coverage rate.

Absolute value of net warrant flows realized as of 30 days periods for each transaction and liability are calculated provided that changes in fair values of derivative transactions and other liabilities can form a margin liability in accordance with “Regulation on Calculation of Liquidity Coverage Ratio of Banks” entered into force through publishing in Official Gazette dated 21 March 2014 and numbered 28948. The biggest absolute value, which is calculated in the last 24 months, is taken into consideration as cash outflow. Calculations for derivative transactions and other liabilities, having a flow history shorter than 24 months, are performed from the date in which the transaction is triggered. Information related to the aforementioned cash outflow occurred on 31 December 2024 is given below:

Date	FC	FC+TL
31 December 2024	2,392,122	2,392,122

Liquidity coverage rates are calculated weekly for consolidated basis and monthly for consolidated basis as of 31 December 2015 in accordance with the “Regulation on Calculation of Liquidity Coverage Ratio of Banks” published in Official Gazette dated 21 March 2014 and numbered 28948. As of 31 December 2024, liquidity coverage rates must be at least 80% for foreign currency assets and liabilities and at least 100% in total assets and liabilities. Dates and values of the lowest and highest foreign currency and total consolidated liquidity coverage ratios related to the three-month period calculated by taking daily arithmetic averages are explained in the table below:

Current Period	Maximum (%)		Minimum (%)	
	FC + TL	FC	FC + TL	FC
Monthly Arithmetic Average (%)	156.51	234.83	125.27	201.18
Month	01.12.2024	01.11.2024	01.10.2024	01.12.2024
Prior Period	Maximum (%)		Minimum (%)	
	FC + TL	FC	FC + TL	FC
Monthly Arithmetic Average (%)	245.72	276.97	197.98	177.88
Month	01.12.2023	01.10.2023	01.11.2023	01.11.2023

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):

VIII. EXPLANATIONS ON CONSOLIDATED LIQUIDITY RISK AND THE CONSOLIDATED LIQUIDITY COVERAGE RATIO (Continued):

Net Stable Funding Ratio:

Net stable funding ratio (NSFR) is calculated by dividing the available stable funding amount by the required stable funding amount. Available stable funding includes the portion of banks’ liabilities and capital that are expected to be permanent; and required stable funding refers to the portion of banks’ on-balance sheet assets and off-balance sheet liabilities that are expected to be refinanced.

The available stable funding amount is calculated by summing the amounts obtained after applying the relevant consideration rates determined within the scope of the legislation to the amounts of banks’ liabilities and capital items valued in accordance with TFRS. The required stable funding amount is calculated by applying the relevant consideration rates determined within the scope of the legislation to the value, after deducting the special provisions set aside in accordance with the Regulation on the Classification of Loans and Provisions, from the amounts of banks’ on-balance sheet assets and off-balance sheet liabilities valued in accordance with TFRS.

The three-month simple arithmetic average of the consolidated and unconsolidated NSFR, calculated monthly during the capital calculation periods of March, June, September, and December, cannot be less than one hundred percent.

Current Period		Unweighted Amount According to Residual Maturity				Total Weighted Amount

**INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE
GROUP ON A CONSOLIDATED BASIS (Continued):****IX. EXPLANATIONS ON CONSOLIDATED LEVERAGE RATIO:****Information on subjects that causes difference in leverage ratio between current and prior periods:**

As of 31 December 2024, the leverage ratio of the Group calculated from the arithmetic average of the three months is 7.92% (31 December 2023: 7.29%). This ratio is above the minimum required. The most important reason for the difference in leverage ratio between current and prior period is the increase in balance sheet and off-balance sheet assets.

Disclosure of leverage ratio template:

	31 December 2024 (*)	31 December 2023 (*)
Balance sheet assets		
Balance sheet assets (excluding derivative financial assets and credit derivatives, including collaterals)	116,173,224	87,010,514
(Assets deducted from Core capital)	298,228	142,425

BURGAN BANK A.Ş.**EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF 31 DECEMBER 2024**

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

**INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE
GROUP ON A CONSOLIDATED BASIS (Continued):****X. EXPLANATIONS ON HEDGE TRANSACTIONS:**

As of 31 December 2024, The Bank applies cash flow hedge accounting using interest swaps to hedge its FC deposits with an average maturity up to 3 months against interest rate fluctuations. The Bank implements effectiveness tests at the balance sheet dates for hedge accounting; the effective parts are accounted as defined in TFRS 9, in financial statements under equity “Hedging Funds”, whereas the amount concerning ineffective parts is associated with the statement of profit or loss.

As of the balance sheet date derivative financial assets of which carrying amount is TL 1,341,808 (31 December 2023: TL 2,678,566) and derivative financial payables of which carrying amount is TL 760,072 (31 December 2023: TL 544,832), are subject to hedge accounting as hedging instruments. As a result of the mentioned hedge accounting, fair value expense amounting to TL 429,024 (31 December 2023: TL (130,328) fair value expense) after tax is recognized under the equity in the current period. The amount which is ineffective or transferred from equity to the income statement due to closed swaps is TL 569,074 (31 December 2023: TL 2,064).

Hedging Instrument	Hedging Subject	Exposed Risk	Hedging Instruments Fair Value		Hedging Funds	Ineffective Part Accounted in the Statement of Profit or Loss (Net)
			Assets	Liabilities		
Cross Currency Swap	Floating rate up to 3 month maturity FC deposits	Cash flow risk of changes in market interest rates	134,744	52,217	30,004	-
Interest Rate Swap	Floating rate up to 3 month maturity FC deposits	Cash flow risk of changes in market interest rates	1,207,064	707,855	131,294	-

When hedge accounting of cash flow hedges cannot be maintained effectively as defined in TAS 39, the accounting application is ended. In case of deterioration of efficiency, the effective amounts, which are recognized under the equity due to the risk hedge accounting, are eliminated from equities in the periods or periods, when cash flow effects profit and losses (periods, when interest income or expenses are recognized) as re-classification adjustment and then it is re-classified in the profit and loss. The amount which is ineffective or transferred from equity to the income statement due to closed swaps in the current period is TL 569,074 (31 December 2023: TL 2,064).

INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE GROUP ON A CONSOLIDATED BASIS (Continued):**XI. EXPLANATIONS ON THE PRESENTATION OF FINANCIAL ASSETS AND LIABILITIES AT THEIR FAIR VALUES:****a. Financial Assets and Liabilities at their fair values:**

Financial assets measured at amortized cost are determined based on market prices or when this price is not available, based on market prices quoted for other securities subject to the same redemption qualifications in terms of interest, maturity and other similar conditions.

The expected fair value of the demand placements and deposits represents the amount to be paid upon request. The expected fair value of the fixed rate deposits is determined by calculating the discounted cash flow using the Bank’s current interest rates as of balance sheet date.

The expected fair value of loans and receivables are determined by calculating the discounted cash flows using the Bank’s current interest rates for fixed interest loans. For the loans with floating interest rates, it is assumed that the book value reflects the fair value.

The expected fair value of bank placements, money market placements and bank deposits are determined by calculating the discounted cash flows using the current market interest rates of similar assets and liabilities. The book value represents the sum of acquisition cost and accumulated interest accruals of the related assets and liabilities.

The following table summarises the book values and fair values of some financial assets and liabilities of the Group.

	Book Value		Fair Value	
	31 December 2024	31 December 2023	31 December 2024	31 December 2023
Financial Assets	96,631,962	68,250,590	95,953,533	67,601,840

AS OF 31 DECEMBER 2024**

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

**INFORMATION RELATED TO THE FINANCIAL STRUCTURE AND RISK MANAGEMENT OF THE
GROUP ON A CONSOLIDATED BASIS (Continued):****XI. EXPLANATION REGARDING THE PRESENTATION OF FINANCIAL ASSETS AND
LIABILITIES AT THEIR FAIR VALUES (Continued):****b. Fair value hierarchy:**

TFRS 13 sets a hierarchy of valuation techniques according to the observability of data used in valuation techniques which establish basis for fair value calculations.

Aforesaid fair value hierarchy is determined as follows.

- a) Quoted market prices (non-adjusted for identical assets or liabilities) (1st level)
- b) Directly (by way of prices) or indirectly (derived from prices) data for the assets or liabilities, other than quoted prices in the 1st level (2nd level)
- c) Data not based on observable data regarding assets or liabilities (3rd level)

Fair value hierarchy of the financial assets and liabilities of the Bank carried at fair value according to the foregoing principles is given in the table below:

31 December 2024	1st Level	2nd Level	3rd Level	Total
Financial Assets at Fair Value Through Profit or Loss	1,994,074	851,225	-	2,845,299
Government Debt Securities	904,306	-	-	904,306
Share Certificates	-	847,556	-	847,556
Derivative financial assets at fair value through profit or loss	1,089,768	-	-	1,089,768
Other Securities	-	3,669	-	3,669
Financial Assets at Fair Value Through other comprehensive income (*)	10,193,042	446,055	-	10,639,097
Share Certificates	-	54,558	-	54,558
Government Debt Securities	10,193,042	-	-	10,193,042
Other Securities	-	391,497	-	391,497
Derivative Financial Assets at Fair Value Through Other Comprehensive Income	-	1,341,808	-	1,341,808
Total Assets	12,187,116	2,639,088	-	14,826,204
Derivative Financial Liabilities at Fair Value Through Profit or Loss	-	1,100,833	-	1,100,833
Derivative Financial Liabilities at Fair Value Through Other Comprehensive Income	-	760,072	-	760,072
Total Liabilities	-	1,860,905	-	1,860,905

(*) As noted in the Section Three footnote VII-d, since the securities representing the share in the capital, which are classified as financial assets at fair value through other comprehensive income, are not traded in organized markets and their fair value cannot be determined reliably, they are reflected in the financial statements at cost after deducting the provision for impairment. There are no transfer between 1st and 2nd levels in the current period.

3. Information on reserve requirements:

The Bank establishes mandatory reserves with the Central Bank of the Republic of Turkey (CBRT) for Turkish lira and foreign currency liabilities according to the CBRT’s “Communiqué on Reserve Requirements No. 2013/15.” Mandatory reserves can be held at the CBRT in Turkish Lira, USD, EUR, and standard gold as per the “Communiqué on Reserve Requirements.”

As of 31 December 2024, the applicable rates for mandatory reserves held at the CBRT are between 3% and 17% for TL depending on the maturity structure, excluding accounts for which the Central Bank provides exchange rate/price protection (31 December 2023: between 0% and 8%); for accounts with exchange rate/price protection provided by the Central Bank, the range is between 22% and 33% (31 December 2023: between 10% and 30%). For foreign currency, the rates range between 5% and 30% depending on the maturity structure of foreign currency deposits (31 December 2023: between 5% and 30%). Additionally, a mandatory reserve of 4% in TL is required for foreign currency deposits.

**EXPLANATIONS AND NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF 31 DECEMBER 2024**

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

EXPLANATIONS AND NOTES RELATED TO CONSOLIDATED FINANCIAL STATEMENTS (Continued):

I. EXPLANATIONS AND NOTES RELATED TO CONSOLIDATED ASSETS (Continued):

e. Explanations on loans (Continued):

11. Policy followed-up for the collection of uncollectible loans and other receivables:

The Bank aims to collect uncollectible loans and other receivables are collected through the liquidation of collaterals by legal procedures.

12. Explanations of the write-off policy:

Within the scope of the amendment to the Banking Act, the Regulation on the Classification of Loans and the Procedures and Principles for the provisions to be allocated for them were also amended;

- Classified under Fifth Group-Uncollectible Loans,
- Part of the borrower's default for the lifetime expected credit losses or if there are no reasonable expectations for the recover of loans allocated in specific provision,
- From the first reporting period (interim or year-end reporting period) following their classification in the group,

It has been allowed to be written-off from the accounts under TFRS 9.

Accordingly, non-performing loans are tracked in off-balance sheet accounts by writing-off the records. This transaction is an accounting application that allows the transfer of the legal proceeding balance to the off-balance sheet by removing it from asset accounts and not the result of the Bank giving up the right to credit.

It is not compulsory that the entire receivable for collecting from registration has no possibility to collect, but it is possible to remove the part that does not have partial collection possibility from the assets.

In order to write-off any legal proceedings from the account;

- Classified under Fifth Group (Uncollectible Loans),
- 100% provision for the portion of the account balance that will be written-off,
- Either the legal proceedings to be continued or to be started,

must be met.

Provisions allocated for amounts written-off from the accounts are considered "expense" in terms of tax legislation. The write-off process is only an accounting process and will continue the legal proceedings for the collection of the Bank's receivables. After the writing-off process, the balance in the off-balance sheet accounts will be collected for the part of the debt that is written-off from the account in full or part of the collection by agreeing with the borrower and the debtor's request.

As of 31 December 2024, the Bank has a written-off receivable of TL 356 (31 December 2023: TL 193,612).

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS AND NOTES RELATED TO CONSOLIDATED FINANCIAL STATEMENTS (Continued):**II. EXPLANATIONS AND NOTES RELATED TO CONSOLIDATED LIABILITIES (Continued):****h. Information on provisions:**

1. Information on reserve for employment termination benefits:

Under the Turkish Labor Law, the Bank is required to pay a specific amount to the employees who have been working more than one year, when employment is terminated due to obligatory reasons or they retire, when they have fulfilled 25 working years (women 20) and are eligible for retirement (for women 58 years, for men 60 years), when they have been called up for military service or when they die. After the amendment of legislation on 23 May 2002, some of the transition process articles related to the working period before retirement were enacted.

The payment amount that is one month’s salary for each working year is restricted to employment termination ceiling. Employment termination benefits are not funded as there is no funding requirement,

In accordance with Turkish Labor Law, the reserve has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of its employees. TAS 19 necessitates the actuarial valuation methods to calculate liabilities of enterprises. Independent actuaries are used in determining the liability of the Group. There are assumptions in the calculation as discount rate, employee turnover and expected salary increases. In this context, the following actuarial assumptions are used in the calculation of total liabilities.

	31 December 2024	31 December 2023
Discount Rate (%)	2.75	2.46
Salary Increase Rate (%)	25.28	22.61
Average Remaining Work Period (Year)	16.61	12.97

Movement of reserve for employment termination benefits during the period:

	31 December 2024	31 December 2023
Prior period end balance	82,229	78,934
Current service cost	18,818	14,368
Interest cost	15,699	7,249
Reductions and payments	-	-
Actuarial loss/gain	(628)	23,726
Benefits paid (-)	16,892	42,124
Balance at the End of the Period	99,226	82,153

In addition, as of 31 December 2024, the Bank has accounted for vacation rights provision and personnel bonus provision amounting to TL 440,673 (31 December 2023: TL 283,648).
